Russian National Security And Foreign Policy In Transition:

Russian National Security and Foreign Policy in Transition Eugene B. Rumer, 1995 This study is an examination and assessment of critical trends in the evolution of Russian thinking on foreign and national security policy in recent years The consensus of the Gorbachev and Yeltsin eras that promised rapprochement with the West has been replaced by a new consensus that is pushing Russia toward a more aloof position vis a vis the Western alliance as leaders grapple with problems along Russia's immediate periphery and seek to rebuild Russia's sphere of influence A key issue is the contradiction between U S recognition of the newly independent states around Russia's periphery and Russia's special role of oversight throughout the former Soviet Union and pursuit of national interests that might impinge on its neighbor's sovereignty U S policymakers face the task of balancing the newly independent states' right to sovereignty against the need to restore order in a given region and the desire to sustain continuity in U S Russian relations Although there are no easy solutions the Western community can play a constructive role while remaining on the periphery

Foreign Policy In A Transformed World Mark Webber, Michael Smith, 2014-01-14. For 2nd and 3rd year courses in international politics and foreign policy. This text examines foreign policy in relation to change and transformation. It discusses traditional assumptions about foreign policy and foreign policy making and develops a framework to facilitate analysis of the challenges faced by foreign policy makers in the late 1990s. The central elements of the framework are the foreign policy arena, decision making and implementation. The book then applies the framework to a set of regional case studies to explore the global and regional arenas and the challenges to which they give rise. Finally, specific case studies of two countries per region highlight the range of impacts for the changing global and regional context to focus on the analysis of decision making and implementation and to illustrate the benefits of comparative analysis.

Using an expanded and adapted version of Regional Security Complex Theory, it studies both material conditions and discourses of insecurity in its assessment of the region's possible transition towards a more peaceable future.
