## **Perfect Endings A Conscious Approach To Dying And Death:**

**Perfect Endings** Robert Sachs,1998-04-01 Written with lucidity and compassionate understanding **Perfect Endings** shows how the death experience is an expansion into a wider dimension of our core being As we move through our dying process all the strength and wisdom we have gained in a lifetime is called forth This is a time of quickening in which the final stages of living work themselves out as we step into our death and what lies beyond No matter how it appears it is in fact our finest hour our perfect ending Robert Sachs explains how he uses the Tibetan practice of phowa or conscious dying to aid this process in his own counseling practice Written as a series of stories that allow us to be privy to the inner workings of the dying process of individuals with whom Sachs worked as a professional hospice counselor each case illustrates a particular aspect of the transformative process that led each person to his or her own interior landscape Journeying in tandem with these souls Sachs presents different solutions to the task of letting go of life and provides valuable guidance for caregivers family members and those who are facing death themselves

**The Wisdom of the Buddhist Masters: Common and Uncommon Sense** Robert Sachs Author,2011-12-19 This book is introduced by insightful words from HH The Dalai Lama These teachers address many of the topics affecting the world including war poverty the growing trend of drug and alcohol abuse the distorting influence of the media the dangerous pursuit of wealth and the importance of education What we find is that as Sachs sums up Like facets of a diamond what we hear from them is

not some unified chorus but rather different perspectives and emphases based on their life experiences and where they focus their energies to benefit those around them The masters interviewed are HH Kunzig Shamar Rinpoche Ven Tarthang Tulku Rinpoche Geshe Tenzin Wangyal Rinpoche Geshe Michael Roach Ajahn Amaro Roshi Joan Halifax Ven Thubten Chodron Christopher Titmuss and Tenzin Robert Thurman      Becoming Buddha Robert Sachs,2012-01-01 To Become Buddha is to AWAKE We need to awake to our personal responsibility not only for our own lives but for the world around us Individual efforts can change the world This book does not promise enlightenment but it will provide a path a path that if you follow it will transform your life Buddhist masters say that we are in a Dark Age Terrorist attacks wars economic failures and natural disasters have created an atmosphere of fear Tibetan masters encourage us not to lose heart catastrophes have happened before and we have overcome them Robert Sachs shows how Tibetan Buddhist teachings can have a real influence on our personal lived and equally on contemporary politics He presents the four thoughts that revolutionize the mind and demonstrates how we must take personal responsibility for the future The Four Noble Truths show us there is no need to despair and the four components of action will change our attitude to life and give us practical instruction on how to act Using the power of meditation to make a difference we can turn the inherent goodness of the human race into positive energy to help transform the world The Venerable Chogyam Trungpa Rinpoche used to say A mind that is transformed free and cheerful can help create peace and happiness Let us start down the path from this very moment      *Principles of Health Care Ethics* Richard Edmund Ashcroft,Angus Dawson,Heather Draper,John McMillan,2015-08-12 Edited by four leading members of the new generation of medical and healthcare ethicists working in the UK respected worldwide for their work in medical ethics Principles of Health Care Ethics Second Edition is a standard resource for students professionals and academics wishing to understand current and future issues in healthcare ethics With a distinguished international panel of contributors working at the leading edge of academia this volume presents a comprehensive guide to the field with state of the art introductions to the wide range of topics in modern healthcare ethics from consent to human rights from utilitarianism to feminism from the doctor patient relationship to xenotransplantation This volume is the Second Edition of the highly successful work edited by Professor Raanan Gillon Emeritus Professor of Medical Ethics at Imperial College London and former editor of the Journal of Medical Ethics the leading journal in this field Developments from the First Edition include The focus on Four Principles Method is relaxed to cover more different methods in health care ethics More material on new medical technologies is included the coverage of issues on the doctor patient relationship is expanded and material on ethics and public health is brought together into a new section      The Quest ,1998      The Passionate Buddha Robert Sachs,2002-07-01 Discusses the Buddhist meaning of true love and how to attain it in the modern world Interweaves Tantric Buddhist teachings with modern concerns such as monogamy and contraception Gives a holistic view of a healthy relationship from physical pleasure to emotional connections and spiritual transformation Discusses love in the broader

Buddhist concepts of karma and reincarnation Beginning his book with the ringing question what are you waiting for Robert Sachs goes on to interweave traditional Buddhist thought with the concerns of the modern couple Using clear playful language Sachs describes the different aspects of healthy relationships within a Buddhist context However rather than just setting an ideal he clarifies how Buddhist practices not only can be integrated into a modern lifestyle but also can be powerful tools for the many changes that occur in any loving relationship Sachs also considers the role of each individual in a relationship showing that a couple may develop or possess qualities of being an indivisible unit but that where the real work lies is when two people are committed to grow and change with one another He offers techniques for finding oneself both in and out of a relationship and ideas on how to deal with anger and other emotions that arise in the course of life emotions that occur most intensely over the course of an intimate relationship The Passionate Buddha acts as a guide for all of those fumbling toward ecstasy in today s confusing world of relationships

### **Death and Dying, Spirituality, and Religions**

Lucy Bregman, 2003 The death awareness movement provides a new language for speaking about death and dying by stressing death dying and bereavement as meaningful human experiences beyond their medical context This movement appears secular and detached from religion although its advocates embrace spirituality However is this separation from religion realistic Death and Dying Spirituality and Religions refutes that view and undermines the popular opposition between spirituality and religion The death awareness movement is deeply indebted to popular Christianity Judaism and Buddhism as well as tribal religions for their ideas and images Urging a thoughtful theological response this book illustrates how such diverse religious legacies contribute to contemporary views of death and dying The Publishers Weekly, 1998
