Permaculture In A Nutshell:

Permaculture in a Nutshell Patrick Whitefield,1992 The Living Landscape Patrick Whitefield,2009 Being able to read the landscape whilst on a walk makes a huge difference It is like suddenly seeing the world in colour after being used to a lifetime of black and white The Living Landscape looks in detail at landscape formation from rocks through soil to vegetation and the intricate web of interactions between plants animals climate and the people that makes the landscape around us Each chapter is interspersed with diagrams sketches and notes that Patrick has taken over two decades of living and working in the countryside Patrick will inspire you to reconnect with the land as a living entity not a collection of different scenery and develop an active relationship with nature and the countryside This book invites you to actively engage with nature and experience it first hand Understanding how landscapes evolve is a useful skill for landscape designers farmers gardeners and smallholders but it is also a life enhancing skill all of us can enjoy Patrick offers us the enduring pleasure that costs nothing and yet offers everything Publisher s description **Urbanism for a Difficult Future** Korkut Onaran,2022-09-29 Urbanism for a Difficult Future Practical Responses to the Climate Crisis is a much needed guide to launching the next generation of land use planning and urbanism that will enable us to adapt to and survive the consequences of climate change The book offers strong straightforward measures for creating a landscape of resilience via pockets of self sufficiencies It demonstrates how to secure systems that sustain life energy water food waste and production of essential goods as well as political and social protocols enabling agile decision making in managing these systems effectively at local levels It also provides the design principles for creating a built environment that will enable the kind of localization we need for adaptation The book explores how it is possible to create a life that does not depend on large scale regional sustenance systems which are likely to be disrupted or fail This book uncovers how to enable people to be creative productive and supportive at local levels so that we can achieve strong and diverse local economies that can sustain life It will appeal to students planners and policy makers working in environmental studies environmental engineering urban and regional planning architecture landscape architecture and urbanism Permaculture International Journal ,1999
