to an Iranian state dates from about the middle of the ninth century B C when the territory of the Medes began to attract the attention of the Assyrian kings Persia itself sprang into prominence with the appearance of Cyrus the Great who reigned from 558 530 B C About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works General Introduction to Persian Literature J.T.P.
