Perception And Representation Current Issues:

Perception Paul Rookes, Jane Willson, 2000 Introduces students to the basic biological and psychological processes and their development It discusses pattern recognition culture and attention and includes a brief discussion of artificial intelligence

Current Issues in Computing and Philosophy Adam Briggie, Katinka Waelbers, Philip A. E. Brey, 2008 The theme of this volume is the multi faceted computational turn that is occurring through the interaction of the disciplines of philosophy and computing In computer and information sciences there are significant conceptual and methodological questions that require reflection and analysis Moreover digital information and communication technologies have had tremendous impact on society which raises further philosophical questions This book tries to facilitate the task to continuously work to ensure that its diversity of perspectives and methods proves a source of strength and collaboration rather than a source of instability and disintegration The first three contributions explore the phenomenon of virtual worlds The next four focus on robots and artificial agents Then a group of chapters discusses the relation between human mentality and information processing in computers and the final section covers a broad range of issues at the interface of computers and society

Current Issues in Perceptual Training: Facing the Requirement to Couple Perception, Cognition, and Action in Complex Motor Behavior André Klostermann, David Mann, 2020-01-16

Perception and Representation Ilona Roth, Vicki Bruce, 1995 An in depth treatment of theories and findings in perception and representation introducing a cross section of different research methods and concepts such as conceptual categorization object recognition and especially face recognition and perception Includes activities self assessment questions summaries and boxes on research techniques and specific studies plus bandw illustrations This second edition incorporates developments in neuropsychology and computer modeling For students in cognitive psychology Distributed by Taylor and Francis Annotation copyright by Book News Inc Portland OR
