clinical exam and management of specific disorders      *Neuromusculoskeletal Examination and Assessment* Nicola J. Petty, Ann P. Moore, 1997-12-31 This is a practical guide to the examination and assessment of the neuromusculoskeletal system which aims to enable the therapist to identify a client's problem before deciding on a treatment. Because it focuses on these preliminary diagnostic processes it is a complementary text supporting books on the various treatment techniques themselves such as the available books by Leon Chaitow, Gregory Grieve etc. It brings together as one process the examination and assessment of all the structures involved: joint, nerve and muscle tissue and is designed for use by anyone requiring to identify and assess clinical problems in this area, both student and clinician. It is highly illustrated with clear step by step sequences of illustrations and text that are logical and easy to follow. The co-author Ann Moore is also co-author of *The Clinical Educator Role Development* and co-editor of the journal *Manual Therapy*. She is probably the best known person in the manual therapy field in the UK and beyond. Features: Addresses a need common to all manual therapists. Complements technique manuals by focusing on the preliminary diagnostic processes.
