Current and Future Trends on Intelligent Technology Adoption Mohammed A. Al-Sharafi, Mostafa Al-Emran, Garry Wei-Han Tan, Keng-Boon Ooi, 2024-06-12 This book explores current and future trends in adopting intelligent technologies among individuals and organizations. The edited book includes empirical and review studies primarily focusing on these issues. This focus aids scholars in conducting future research in the domain and identifying possible future developments of emerging technologies. The empirical studies in the book utilize recent and advanced analytical techniques for data analysis.

Advances in Affective and Pleasurable Design Yong Gu Ji, Sooshin Choi, 2021-07-19 This volume discusses pleasurable design as a part of the traditional usability design and evaluation methodologies. The book emphasizes the importance of designing products and services to maximize user satisfaction. By combining this with traditional usability methods, it increases the appeal of products and use of services. This book focuses on a positive emotional approach in product service and system design and emphasizes aesthetics and enjoyment in user experience and provides dissemination and exchange of scientific information on the theoretical and practical areas of affective and pleasurable design for research experts and industry practitioners from multidisciplinary backgrounds including industrial designers, emotion designer, ethnographers, human computer interaction researchers, human factors engineers, interaction designers, mobile product designers, and vehicle system designers.

HCI International 2013 - Posters' Extended Abstracts Constantine Stephanidis, 2013-06-13 This is the second of a two volume set CCIS 373 and CCIS 374 that constitutes the extended abstracts of the posters presented during the 15th International Conference on Human Computer Interaction HCII 2013 held in Las Vegas USA in July 2013 jointly with 12 other thematically similar conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas. The extended abstracts were carefully reviewed and selected for inclusion in this two volume set. The papers included in this volume are organized in the following topical sections: learning and education, health and medicine, media art and culture, transport, Web and social media, information search and retrieval, work collaboration and creativity, text and storytelling, agents, avatars and robots, smart environments, virtual and mixed environments, security and privacy.

Proceedings of the 2022 3rd International Conference on Big Data and Social Sciences (ICBDSS 2022) Guiyun Guan, Bo Qu, Ding Zhou, 2024-03-13 This is an open access book. As a leading role in the global megatrend of scientific innovation, China has been creating a more and more open environment for scientific innovation, increasing the depth and breadth of academic cooperation and building a community of innovation that benefits all. Such endeavors are making new contributions to the globalization and creating a community of shared future. The 3rd

International Conference on Big Data and Social Sciences ICBDS 2022 was held on August 19-21, 2022 in Hulunbuir, China. With the support of experts and professors, the ICBDS 2022 conference successfully held its first conference last year. In order to allow more scholars to have the opportunity to participate in the conference to share and exchange experience, this conference mainly focused on big data, social science, and other research fields to discuss. At present, my country has entered the era of big data, cloud migration, that is, the era of big data, the Internet of things, cloud computing, and mobile Internet. The market demand for big data talents is also increasing day by day. The purpose of the conference is to provide a way for experts, scholars, engineering technicians, and technical R & D personnel engaged in big data and social science research to share scientific research results and cutting-edge technologies, understand academic development trends, broaden research ideas, strengthen academic research and discussion, and promote the academic achievement industry Platform for chemical cooperation. The conference sincerely invites experts, scholars from domestic and foreign universities, scientific research institutions, business people, and other relevant personnel to participate in the conference. **Virtual and Mobile**

Healthcare: Breakthroughs in Research and Practice Management Association, Information Resources, 2019-09-06. One of the primary topics at the center of discussion and very often debate between industry professionals, government officials, and the general public is the current healthcare system and the potential for an overhaul of its processes and services. Many organizations concerned for the long-term care of patients wish to see new strategies, practices, and organizational tools developed to optimize healthcare systems all over the world. One of the central engines of the current shift toward reorientation of healthcare services is virtual and mobile healthcare. **Virtual and Mobile Healthcare Breakthroughs in Research and Practice** explores the trends, challenges, and issues related to the emergence of mobile and virtual healthcare. The book also examines how mobile technologies can best be used for the benefit of both doctors and their patients. Highlighting a range of topics such as smart healthcare, electronic health records, and mHealth, this publication is an ideal reference source for medical professionals, healthcare administrators, doctors, nurses, practitioners, and researchers in all areas of the medical field. **Future Law** Edwards, Lilian Edwards, 2020-03-02. How will law, regulation, and ethics govern a future of fast-changing technologies? Bringing together cutting-edge authors from academia, legal practice, and the technology industry, **Future Law** explores and leverages the power of human imagination in understanding, critiquing, and improving the legal responses to technological change. It focuses on the practical difficulties of applying law, policy, and ethical structures to emergent technologies both now and in the future. It covers crucial current issues such as big data, ethics, ubiquitous surveillance, and the Internet of Things, and disruptive technologies such as autonomous vehicles, DIY genetics, and robot agents. By using examples from popular culture such as books, films, TV, and Instagram, including *Black Mirror*, *Disney Princesses*, *Star Wars*, *Doctor Who*, and *Rick and Morty*, it brings hypothetical examples to life. And it asks where law might go next and to regulate new phase technology such as artificial intelligence, smart homes, and automated emotion recognition.
