Innovationsmanagement im Handel Dirk Funck, 2014-11-14 Innovationen werden für den Einzelhandel überlebenswichtig. Nur Bestehendes zu verwalten reicht im Wettbewerb nicht mehr aus. Die Rid Stiftung fördert den bayerischen mittelständischen Einzelhandel mit dem Ziel, dessen Zukunftsperspektiven zu verbessern und damit auch die Vielfalt der Stadtkultur und die Angebotsalternativen im Internet zu erhalten. Zum 25. Stiftungsjubiläum hat die Stiftung einen Innovationswettbewerb ausgeschrieben. Eine größere Zahl von Unternehmen über ein Jahr in Innovationsprojekten begleitet und die Gewinner auf einer Tagung im Herbst 2013 ausgezeichnet. In diesem Buch werden die Erkenntnisse und Ergebnisse dieses für den Handel richtungsweisenden Innovationsprojektes aufbereitet und durch weitere Beiträge von Experten aus dem Umfeld des mittelständischen Fachhandels ergänzt. Viele praktische Beispiele aus dem Mittelstand zeigen, dass Innovationen auch in diesem schwierigen Umfeld nicht nur möglich sind, sondern auch zu nachhaltigen Wettbewerbsvorteilen führen können. Interessierte Leser finden Ausführungen zur Ausgangslage des mittelständischen Handels und zum Stand des Innovationsmanagements in diesen Unternehmen. Es folgen vertiefende Einblicke in verschiedene Innovationsfelder im Einzelhandel mit einer Vielzahl an Anregungen, Umsetzungsempfehlungen und Praxisbeispielen. Schließlich werden die Instrumente und Erfolgsfaktoren des Innovationsmanagements praxisnah aufbereitet. Innovationsfreudige, zukunftsorientierte Unternehmerinnen und Unternehmer im Handel erhalten mit diesem Buch eine praxisnahe Inspirationsquelle.

Media & Entertainment Law Ursula Smartt, 2019-11-12 The fourth edition of Media and Entertainment Law has been fully updated, analysing some of the most recent judgments in media law from across the United Kingdom such as *Cliff Richard v the BBC*, *Max Schrems v Facebook* and the Irish Information Commissioner's developments on the right to be forgotten. *NT1 and NT2* and *ABC v Daily Telegraph*. Sir Philip Green. The book's two main themes are freedom of expression and an individual's right to privacy. Regulation of the communication industries is covered extensively, including discussion of the print press and its online editions following Leveson, traditional broadcasting regulations for terrestrial TV and radio as well as media activities on converged devices such as tablets, iPads, mobile phone devices and on-demand services. Intellectual property law, specifically copyright in the music and entertainment industries, is also explored in the book's later chapters. Also new to this edition are sections on: A focus on freedom of expression, its philosophical foundations, the struggles of those who have fought for it and the varied ways in which the courts interpret freedom of expression regarding the taking and publishing of photographs; The right to be forgotten; data breaches and the General Data Protection Regulation (GDPR); The media's increasing access to the courts, particularly when considering the privacy of those who are suspected of sexual offences; Press regulators; broadcasting and advertising regulations; and film and video regulations; Election and party political broadcast regulations with a focus on social media and recent election fraud; The emergence of online music distribution services; internet radio and free digital streaming music services and their effect on the music industry. The fourth edition also

features a variety of pedagogical features to encourage critical analysis of case law and one's own beliefs

Controllable Artificial Intelligence and the Future of Law Hugo Luz dos Santos, 2025-11-08 This book broaches the newly crafted concept of algorithmic dictatorship that draws on a plethora of human biases that creep into the algorithm and feeds into an automated decision that comes to the expense of citizens' lives, freedoms, health, property, fair lending, and credit scoring. This book sheds a keen light on the slew of reasons in view of which artificial intelligence should be both interpretable and controllable as opposed to merely explainable. The reason for that is straightforward: the skewed data baked into the bigoted algorithms' machine biases spawns harrowing effects with which criminal justice has been grappling for a long haul drawn out tallyingly and perhaps unsurprisingly. Law enforcement evinces biases that run along both gender and race lines. No surprise springs from the fact that computer-generated algorithms that propel predictive policing are often flagged as tools whereby racial discrimination abounds. It should not therefore be pegged as flabbergasting that this sort of shady algorithmic governance is a byproduct of a grueling algorithmic dictatorship that is shaping up to crumble the foundations of Rule of Law upon which stands modern societies. This is one of the key takeaways of this book. Disturbingly enough, brain-computer interfaces are poised to be converted into shady tools to collate, gauge, thoughts, emotions, sentiments, and crime-related information that would be otherwise inaccessible to the governments, rogue nations, or unscrupulous actors' prying eyes. Much to our dismay, an eerily dystopian world is unfolding before our very eyes. This is the gist of transhumanism, a byproduct of convolutional neural networks that revolve around deep learning genetic algorithms that will overhaul the current legal landscape beyond recognition. This book charts the path ahead as to draw set-in-stone boundaries to prevent jurisdictions from careening into the chaos of genetic plutocracy that should be wished away.

The Social-Structural Determinants of Health Sofie Hass, Jessica R. Corno, Aida Wisecup, 2025-07-29 Today more than ever, society is faced with the unequivocal question of developing a better understanding of the interconnectedness between social forces, environmental experiences, and the outcomes of mental and physical health and well-being. Post-COVID-19 considerations have led to an unprecedented need to establish a more interdisciplinary understanding of the role that social construction has on health and illness and the diverse set of ways that our social world plays in the identification, treatment, and experience of various diseases and health-related conditions. Social life is intricately linked to quality-of-life variables related to health, both mental and physical. Thus, we recognize the invaluable contribution to the field of medicine made by a comprehensive understanding of health, wellness, and social functioning as a byproduct of the study of the human body and mind. However, we posit that this knowledge would be incomplete without examining the close relationship between health, wellness, and those aspects of social environment that create conditions that can either strengthen or undermine the wellbeing of individuals, groups of people, and entire communities: the social structural determinants of health.
