The Tyranny of Merit Michael J. Sandel, 2020-09-10 A TLS GUARDIAN AND NEW STATESMAN BOOK OF THE YEAR 2020 The new bestseller from the acclaimed author of Justice and one of the world's most popular philosophers Astute insightful and empathetic A crucial book for this moment Tara Westover author of Educated These are dangerous times for democracy We live in an age of winners and losers where the odds are stacked in favour of the already fortunate Stalled social mobility and entrenched inequality give the lie to the promise that you can make it if you try And the consequence is a brew of anger and frustration that has fuelled populist protest with the triumph of Brexit and election of Donald Trump Michael J Sandel argues that to overcome the polarized politics of our time we must rethink the attitudes toward success and failure that have accompanied globalisation and rising inequality Sandel highlights the hubris a meritocracy generates among the winners and the harsh judgement it imposes on those left behind He offers an alternative way of thinking about success more attentive to the role of luck in human affairs more conducive to an ethic of humility and more hospitable to a politics of the common good

Breaking Ranks Colin Diver, 2022-04-12 Some colleges will do anything to improve their national ranking That can be bad for their students and for higher education Since U S News World Report first published a college ranking in 1983 the rankings industry has become a self appointed judge declaring winners and losers among America's colleges and universities In this revealing account Colin Diver shows how popular rankings have induced college applicants to focus solely on pedigree and prestige while tempting educators to sacrifice academic integrity for short term competitive advantage By forcing colleges into standardized best college hierarchies he argues rankings have threatened the institutional diversity intellectual rigor and social mobility that is the genius of American higher education As a former university administrator who refused to play the game Diver leads his readers on an engaging journey through the mysteries of college rankings admissions financial aid spending policies and academic practices He explains how most dominant college rankings perpetuate views of higher education as a purely consumer good susceptible to unidimensional measures of brand value and prestige Many rankings he asserts also undermine the moral authority of higher education by encouraging various forms of distorted behavior misrepresentation and outright cheating by ranked institutions The recent Varsity Blues admissions scandal for example happened in part because affluent parents wanted to get their children into elite schools by any means necessary Explaining what is most useful and important in evaluating colleges Diver offers both college applicants and educators a guide to pursuing their highest academic goals freed from the siren song of the best college illusion Ultimately he reveals how to break ranks with a rankings industry that misleads its consumers undermines academic values and perpetuates social inequality
