Targeting Cell Death Pathways for Enhanced Cancer Immunotherapy: Specific Involve in Necroptosis, Pyroptosis, Ferroptosis, Cuproptosis, Autophagy, Apoptosis, and ICD Research Zebo Jiang,Huanling Lai,Yuwei Wang ,Yifei Xu,2025-11-17
Cancer immunotherapy a pivotal shift in combating cancer harnesses the immune system to target malignant cells Although it has achieved remarkable successes the response variability among patients highlights the critical need for novel therapeutic strategies Recent explorations have spotlighted several alternative cell death pathways necroptosis pyroptosis ferroptosis cuproptosis autophagy apoptosis and immunogenic cell death ICD These pathways play vital roles in the eradication of cancer cells and the enhancement of immune responses presenting an urgent need to deepen our understanding of how they specifically contribute to and can revolutionize cancer immunotherapy This Research Topic aims

to systematically explore the individual roles of these distinct cell death pathways in the context of cancer immunotherapy. The goal is to uncover how these mechanisms interact with current cancer treatments and identify new potential intervention points. By detailing the interactions and potential synergies between these pathways and the immune system, this topic seeks to discover new therapeutic targets that could significantly improve the efficacy of immunotherapies. To expand our comprehension of the synergistic impact of cell death pathways on cancer immunotherapy, we welcome articles focusing on, but not limited to, the following themes: Molecular mechanisms underlying necroptosis, pyroptosis, ferroptosis, cuproptosis, autophagy, apoptosis, and ICD in cancer immunotherapy; Impact of these cell death pathways on tumor progression and immune evasion; Characterizing functional compounds from natural products targeting these pathways; Pharmacological mechanisms of natural products influencing these cell death pathways; Crosstalk between cell death pathways and the immune system; Modulation of the tumor microenvironment by these cell death mechanisms; Development of precision immunotherapies focusing on these pathways. We encourage the submission of original research articles, reviews, mini reviews, and perspective pieces that can contribute to broadening our understanding and development of more effective cancer therapies.

Secrets of the Icewomen Isabelle Hof, Laura Hof, 2025-04-29. Become happier, healthier, and stronger with this essential guide that explores the unique benefits that cold water therapy, along with breathing and mindset exercises, can afford women. Sisters Isabelle and Laura Hof have been practicing and teaching the Wim Hof Method for most of their lives. Science-backed and potentially life-changing, the method focuses on three pillars: breathing, cold therapy, and mindset, which can result in increased energy, better sleep, a strengthened immune system, and more. While the method works for everyone, it has unique physical and mental health benefits for women. Inspired by the potential of the method, Isabelle and Laura started the Icewomen community, devoted to unlocking the power of these practices. In this empowering book, they invite all women to join the community and share the groundbreaking research behind the benefits from improving mental health, boosting confidence, and balancing hormones to enhancing hair and skin health and having a positive impact on pregnancy, breastfeeding, menopause, and more. **Secrets of the Icewomen** also offers detailed advice specifically tailored for women and their needs, including how to plan your WHM practice around your cycle, work on setting strong intentions, adjust and rest if dealing with serious conditions or hormonal imbalances, and learn to understand the very normal range of emotions people have when undergoing cold therapy. No longer the domain of extreme athletes and wellness-minded men, cold water therapy is being discovered and embraced by women everywhere. With this book, Isabelle and Laura make the practices more accessible than ever. Their hope is to convince those who may not have thought this lifestyle was for them to knock down gender barriers and to offer an invitation. Come on in; the water is very cold, and just the cure to reinvigorate and restore you in body, mind, and spirit.
