Atrocities Paul Morrow, Visiting Research Fellow School of Philosophy Paul Morrow, 2025 In Seeing Atrocities Paul Morrow shows how visual encounters with atrocities occur and considers how we ought to respond to them Informed by cutting edge scholarship the book will find readers among lawyers and policymakers educators and curators journalists and human rights advocates The author s arguments are supported by 24 striking illustrations including satellite images Old Master paintings classical sculptures and humanitarian photographs In a world where visual encounters with atrocities have become unavoidable Seeing Atrocities promises to serve as an essential guide Digital Business and Electronic Commerce Bernd

W. Wirtz, 2024-06-04 This textbook introduces readers to digital business from a management standpoint It provides an overview of the foundations of digital business with basics activities and success factors and an analytical view on user behavior Dedicated chapters on mobile and social media present fundamental aspects discuss applications and address key success factors The Internet of Things IoT is subsequently introduced in the context of big data cloud computing and

connecting technologies with a focus on industry 4.0 and the industrial metaverse. In addition, areas such as smart business services, smart homes, and digital consumer applications, as well as artificial intelligence, quantum computing, and automation based on artificial intelligence, will be analysed. The book then turns to digital business models in the B2C business to consumer and B2B business to business sectors. Building on the business model concepts, the book addresses digital business strategy, discussing the strategic digital business environment and digital business value activity systems (dVAs) as well as strategy development in the context of digital business. Special chapters explore the implications of strategy for digital marketing and digital procurement. Lastly, the book discusses the fundamentals of digital business technologies and security and provides an outline of digital business implementation. A comprehensive case study on Google Alphabet explaining Google's organizational history, its integrated business model, and its market environment rounds out the book.

Co-Intelligence Ethan Mollick, 2024-04-02 AN INSTANT NEW YORK TIMES BESTSELLER From Wharton professor and author of the popular One Useful Thing Substack newsletter, Ethan Mollick comes the definitive playbook for working, learning, and living in the new age of AI. Something new entered our world in November 2022: the first general purpose AI that could pass for a human and do the kinds of creative, innovative work that only humans could do previously. Wharton professor Ethan Mollick immediately understood what ChatGPT meant: after millions of years, on our own, humans had developed a kind of co-intelligence that could augment or even replace human thinking. Through his writing, speaking, and teaching, Mollick has become one of the most prominent and provocative explainers of AI, focusing on the practical aspects of how these new tools for thought can transform our world. In *Co-Intelligence*, Mollick urges us to engage with AI as co-worker, co-teacher, and coach. He assesses its profound impact on business and education using dozens of real-time examples of AI in action. *Co-Intelligence* shows what it means to think and work together with smart machines and why it's imperative that we master that skill. Mollick challenges us to utilize AI's enormous power without losing our identity, to learn from it without being misled, and to harness its gifts to create a better human future. Wide-ranging, hugely thought-provoking, optimistic, and lucid, *Co-Intelligence* reveals the promise and power of this new era. [ChatGPT Unleashed](#) Barrett

Williams, ChatGPT, 2024-08-20 *ChatGPT Unleashed: Your Ultimate Guide to Mastering Digital Assistants*.
