The Sicilian Defence David Levy, Kevin J. O'Connell, David Watt, 1981 **Opening Repertoire:** John Dornjas, 2019-03-05 The Najdorf Sicilian is one of Black s most respected and popular responses to 1 e4 It was favoured by those two titans of the game Bobby Fischer and Garry Kasparov and in the modern game it features in the repertoire of many elite players This rich opening creates a wealth of opportunities for vigorous attacks causing most games to be tense and

engaging The Najdorf is that very rare thing an opening for Black that is highly aggressive but is also recognised as being objectively sound In this book FIDE Master John Doknjas and National Master Joshua Doknjas navigate through the main lines of the Najdorf and provide the reader with well researched fresh and innovative analysis Each annotated game has valuable lessons on how to play the opening and contains instructive commentary on typical middle game plans With thorough variations and explanations on pawn structures and piece placement this book provides insight to both strong masters and less experienced players alike The format is ideal for the chessplayer keen to improve their game While reading you are continually challenged to answer probing questions a method that greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of chess knowledge Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn This is an excellent way to study chess while providing the best possible chance to retain what has been learnt
