The Sicilian Dragon Laszlo Sapi, Attila Schneider, 1989 The Yugoslav Attack in the Sicilian Dragon represents chess at its most bloodthirsty Both players launch an all out attack on their opponent's king and the game becomes an exciting race to see whose attack breaks through first *Formation Attack Strategies* Joel Johnson, 2012 The much awaited sequel to the best selling book *Formation Attacks* has arrived *Formation Attack Strategies* is another 500 page book full of great attack information with 579 fabulous attack games from all openings and all eras The games provided in the book came from an in depth global search for unique inspirational and original attacks from some of the world's greatest attackers Many of them toil in remote areas of the planet and have only a local following Let me introduce you to attacking players like Guy West of New Zealand Marc Esserman of Boston MA Liu Wenzhe of China Kevin Seidler of Denver CO Manuel Bosboom of The Netherlands Dharshan Kumaran of India Padre Murphy of Ireland to name a few The book also contains discussions about many attack philosophies attack strategy and planning identification and exploitation of weaknesses and so much more If you are one of the many people who love my last book you will be ecstatic about *Formation Attack Strategies* **The Soltis Variation of the Yugoslav Attack** Steve Mayer, 1995 Chess Opening Repertoire Danilo Soares Marques, 2020-08-25 A chess opening or simply an opening refers to the initial moves of a chess game The term can refer to the initial moves by either side White or Black but an opening by Black may also be known as a defense There are dozens of different openings and hundreds of variants The Oxford Companion to Chess lists 1 327 named openings and variants These vary widely in character from quiet positional play to wild tactical play In addition to referring to specific move sequences the opening is the first phase of a chess game the other phases being the middlegame and the endgame *Formation Attacks* Joel Johnson, 2010 As a Chess Master who has spent many years playing aggressive and attacking chess I was quite dismayed during a recent visit to my local bookstore I was in search of a book that covered an array of attacks against many Pawn formations in an organized fashion Needless to say my search came up empty The books on attacking fell short in many ways Many of the books were simply a small collection of attack games with no instruction about the art of attacking or about the skills required to become a great attacker None of them provided the reader with any reference information about attacking or the weaknesses of various Pawn formations None of them contained games with attacking themes like the Traxler Variation of the Two Knight's Defense and the Jack Young Fishing Pole None of them contained any wild attacking ideas that can stream from opening gambits such as the Blackmar Diemer Gambit King's Gambit Scotch Gambit Nakhmanson Gambit
