## **Simultaneous Man:**

Brainwashing David Seed, 2004 An examination of the literary and cinematic representations of brainwashing during the Cold War era CIA operative who was a tireless campaigner against communism it took hold quickly and became a means to articulate fears of totalitarian tendencies in American life David Seed traces the assimilation of the notion of brainwashing into science fiction political commentary and conspiracy narratives of the Cold War era He demonstrates how these works grew out of a context of political and social events and how they express the anxieties of the time The Manchurian Candidate Seed provides new interpretations of writers such as Orwell and Burroughs within the history of psychological manipulation for political purposes using declassified and other documents to contextualise the material he explores the shifting view points of how brainwashing is represented changing from an external threat to American values to an internal threat against individual American liberties by the U S government will welcome this study

**The Mammoth Book of Extreme Fantasy** Mike Ashley, 2011-08-04 In extreme fantasy anything can happen In Mike Ashley's breathtaking new anthology the only rules are those the writer makes these are stories to liberate both the writers and readers imagination They will take you to hell and back literally two of the stories involve hell in ways never explored before For too long fantasy fiction has become synonymous with vast heroic fantasy adventures in imitation of The Lord of the Rings but the genre has always been far greater than dwarves and elves Today many writers are rediscovering the wider world of fantasy and creating bold new ideas or magically reworking older arts Ashley selects 25 stories by the likes of Orson Scott Card Paul Di Filippo A A Attanasio Michael Swanwick Christopher Priest and Peter Crowther arranged in ascending order of extremeness The anthology opens with a story that takes us beyond Middle Earth in Senator Bilbo by Andy Duncan showing what happens when a radical descendant of his famous namesake tries to introduce immigration control and reaches the ultimate in The Dark One by A A Attanasio a rite of passage story where you the reader discover you are being tested to become the successor to Satan Other stories include A man with a terminal disease looks for a cure in a world where Edward Lear meets Lewis Carroll A man decides to banish all language A tour of Hell by the boatman himself The great comic stars of Hollywood find themselves seeking their lost world A magical experiment recreates the Crucifixion Suddenly all colour drains out of the world A magical recreation of Chinese fantasy cinema where a magician and his adepts fight the flying dead

**Angelic Wisdom concerning the Divine Providence ... From the original Latin, as edited by Dr. J. F. I. Tafel. Translated by R. N.**

**Foster** Emanuel Swedenborg, 1868 *The Swedenborg Concordance* John Faulkner Potts, 1898 **Image and Hope** Yaroslav Viazovskii, 2015-07-17 Developments in biblical studies neurosciences and Christian philosophy of mind force theologians to reconsider the traditional concept of the immortal soul At the same time the concept itself tends to create axiological dualism between the body and the soul that in turn may lead to insufficient appreciation of the physical life in this world A more holistic approach to the ontology of human beings is required The aim of this study is to analyze the function of

the concept of the soul in the dualistic anthropology of John Calvin and to compare it to the holistic anthropology of Karl Barth in order to answer the question of whether the transition from one to the other is possible without the loss of the functions fulfilled by the soul

**Time and Identity** Joseph Keim Campbell, Michael O'Rourke, Harry S. Silverstein, 2010-05-28

Original essays on the metaphysics of time identity and the self written by distinguished scholars and important rising philosophers The concepts of time and identity seem at once unproblematic and frustratingly difficult Time is an intricate part of our experience it would seem that the passage of time is a prerequisite for having any experience at all and yet recalcitrant questions about time remain Is time real Does time flow Do past and future moments exist Philosophers face similarly stubborn questions about identity particularly about the persistence of identical entities through change Indeed questions about the metaphysics of persistence take on many of the complexities inherent in philosophical considerations of time This volume of original essays brings together these two essentially related concepts in a way not reflected in the available literature making it required reading for philosophers working in metaphysics and students interested in these topics The contributors distinguished authors and rising scholars first consider the nature of time and then turn to the relation of identity focusing on the metaphysical connections between the two with a special emphasis on personal identity The volume concludes with essays on the metaphysics of death issues in which time and identity play a significant role This groundbreaking collection offers both cutting edge epistemological analysis and historical perspectives on contemporary topics Contributors Harriet Baber Lynne Rudder Baker Ben Bradley John W Carroll Reinaldo Elugardo Geoffrey Gorham Mark Hinchliff Jenann Ismael Barbara Levenbook Andrew Light Lawrence B Lombard Ned Markosian Harold Noonan John Perry Harry S Silverstein Matthew H Slater Robert J Stainton Neil A Tognazzini
