Shostakovich in Context Rosamund Bartlett, 2000 This volume presents recent research into Dmitri Shostakovich's life 1906-1975 and work by leading British American Russian and Israeli scholars It is occasioned by the ever growing interest in a composer whose significance in and for the history of twentieth century music is as Richard Taruskin has commented immense possibly unparalleled and above all continuing The authors of the thirteen articles are musicologists Russian literature specialists biographers and cultural historians whose diverse fields of expertise are reflected in the interdisciplinary nature of the materials collected here The collection presents Shostakovich and his legacy in a variety of different contexts and its interdisciplinary nature will also serve to open up discussion In this way it breaks from previous tendencies to focus on the purely extrinsic qualities of the composer's musical oeuvre which has so often been interpreted in terms of autobiography The chapters span the composer's entire career and contain substantial amounts of new information about Shostakovich and his musical legacy

A Soviet Credo: Shostakovich's Fourth Symphony Pauline Fairclough, 2017-07-05 Composed in 1935-36 and intended to be his artistic credo Shostakovich's Fourth Symphony was not performed publicly until 1961 Here Dr Pauline Fairclough tackles head on one of the most significant and least understood of Shostakovich's major works She argues that the Fourth Symphony was radically different from its Soviet contemporaries in terms of its structure dramaturgy tone and even language and therefore challenged the norms of Soviet symphonism at a crucial stage of its development With the backing of prominent musicologists such as Ivan Sollertinsky the composer could realistically have expected the premiere to have taken place and may even have intended the symphony to be a model for a new kind of democratic Soviet symphonism Fairclough meticulously examines the score to inform a discussion of tonal and thematic processes allusion paraphrase and reference to musical types or intonations Such analysis is set deeply in the context of Soviet musical culture during the period 1932-36 involving Shostakovich's contemporaries Shchepkin Myaskovsky Kabalevsky and Popov A new method of analysis is also advanced here where a range of Soviet and Western analytical methods are informed by the theoretical work of Shostakovich's contemporaries Viktor Shklovsky Boris Tomashevsky Mikhail Bakhtin and Ivan Sollertinsky together with Theodor Adorno's late study of Mahler In this way the book will significantly increase an understanding of the symphony and its context
