Sight Unseen:

Sight Unseen James Swallow, 2015-09-29 Based on Star Trek and Star Trek the next generation created by Gene Roddenberry

Sight Unseen Martin A. Berger, 2005-11-03 A compelling and challenging work Frances K Pohl author of Framing America Berger is unafraid to tackle the major issues and this book shows it Bruce Robertson author of Marsden Hartley and Reckoning with Winslow Homer Berger writing on topics as diverse as landscape photography and early film pushes into fascinating issues of gender race and class with sensitivity insight and largely jargon free analysis Having made a mark as a key Eakins scholar he promises to achieve a similar feat in Sight Unseen getting us to rethink traditional material in a new light John Wilmerding Christopher Binyon Sarofim Professor of American Art Princeton University

Walking Through Walls and Other Impossibilities Milton E Brener, 2011-06-09 The goal of the aliens among us is not the study of Earth for purely academic purposes It is something more vital to the aliens and more portentous for us The picture that emerges from much research makes sense of several aspects of the alien presence previously quite puzzling They apparently are a dying race inhabiting a dying planet They have undoubtedly mastered physical forces and phenomena of which we have not even dreamed But it has come at a terrible cost Their emotional life has been all but lost existing only as a faint remnant from a long distant past They may pity our hopelessly primitive technology but they envy us our robust emotional life Like all living things everywhere they live for the perpetuation of their genes They do not hate us nor do they seek our destruction They seek to create a race of hybrids combining their scientifically superior minds with our rich emotional makeup The ridicule of the entire subject by the government and other forces fearful of upheaval in our society has aggravated the suffering of those chosen and victimized by the aliens who apparently seek ineptly sometimes to minimize it The author combines this scholarly approach with an almost folksy narrative style to make Walking Through Walls a very readable and approachable treatise on the phenomena as good as any book on the subject and far more skillfully written than most including those Brener has referenced most frequently Bud Hopkins Intruders and Philip Corso s The Day after Roswell Blue Ink Review
