How do we know if we can beat the bookmaker That s easy just look at our bank balance But how do we know if we ve not just been lucky More specifically how do we know that someone who says he can do it and who is selling his expertise can keep doing it again and again through talent skill and hard work This book examines the techniques available to answer that question to identify those qualities and to help the punter find value for money in an industry that appears to be largely built on trust and the influence of chance to uncover the truth about sports tipsters and ultimately how to find the best tipsters the Black Cats

Squares and Sharps, Suckers and Sharks Joseph Buchdahl,2016-05-26 People have been gambling in one form or another for as long as history itself Why Money entertainment escape and a desire to win are all traditional explanations Arguably however these are secondary considerations to a higher order purpose a craving for control Gambling offers a means of gaining authority over the unknown granting us a sense of control over uncertainty Almost always that sense is illusory gambling including betting and investing is essentially random yet for many it is nonetheless profoundly rewarding This book attempts to explore the reasons why Along the way it examines The science of probability and uncertainty Why gambling is often condemned The difference between expectation and utility The irrationality of human beings Evolutionary perspectives on gambling Luck and skill Market efficiency and the wisdom of crowds Why winners take all Cheating Why the process matters more than the outcome
