It explores communication within and for sport in all its theoretical, conceptual, cultural, behavioral, practical and managerial aspects, tracing the contours of this expansive transdisciplinary and international discipline and demonstrating that there are few aspects of contemporary sport that don't rely on effective communications. Including contributions from leading sport media and communications scholars and professionals from around the world, the book examines emerging new and social media, traditional print, broadcast and screen media, sociological themes in communication in sport and management issues at every level from the interpersonal to communication within and between sport organisations and global institutions. Taking stock of current research, new ideas and key issues, this book is an essential reference for any advanced student, researcher or practitioner with an interest in sport communication, sport business, sport management, sport marketing, communication theory, journalism or media studies.

Sports Capitalism Frank P. Jozsa, 2017-11-28 The book focuses on how, when, where and why the US based professional sports leagues extend their brands and penetrate markets in nations across the globe. The book examines the strategies, progress and expectations of each league despite the cultural, economic and political barriers that exist between and within countries and areas. It offers a model of the sports business and where appropriate, the emergence, evolution and growth of prominent women's sports leagues are documented. This book is unique as there are no other academic publications that study and report the global ambitions of this special group of organizations in one volume. Readers such as college and university sports history, management, marketing and international business professors, students and researchers can use and apply the book as either a teaching supplement, reference and/or literature source. It will also appeal to targeted groups beyond the academic community with strategic economic incentives to learn about sports capitalism such as sports entrepreneurs and league officials.
