The Complete Idiot's Guide to Getting Into Top Colleges Ian R. Leslie, Marna Atkin, 2009-06-02 Cruise your way to the Ivy League It s no secret that it s harder to get into college these days Ivy League

and other selective schools have record numbers of applicants making the competition even steeper This must have guide carefully explores the to do s to gain admission to a top tier school Students and parents will learn about choosing the right school what college admissions officers really consider when making their decisions early decision versus early action and what being on the waitlist means Provides sample essays recommendation forms resources and websites Includes advice from guidance counselors and admission officers of top colleges Between now and 2015 there will be more than 3 million high school graduates each year

The Years That Matter Most Paul Tough,2019-09-12 What has gone wrong in our universities And how do we make it right When Amy applied to university she thought she d be judged purely on her merits But she never thought that her family background would have as much impact on her future as her grades When KiKi arrived at university she knew she could be the only black woman in her class But she didn t know how out of place she would feel nor how unwelcoming her peers would be When Orry graduated from university he was told he d probably land a six figure salary But he wasn t told he d end up barely scraping a living wage struggling to feed his children Drawing on the stories of hundreds of American students *The Years That Matters Most* is a revelatory account of a university system in crisis Paul Tough bestselling author of *How Children Succeed* exposes a world where small town colleges go bust while the most prestigious raise billions every year where overstretched admissions officers are forced to pick rich candidates over smart ones where black and working class students are left to sink or swim on uncaring campuses Along the way he uncovers cutting edge research from the academics leading the way to a new kind of university one where students succeed not because of their background but because of the quality of their minds The result is a call to arms for universities that work for everyone and a manual for how we can make it happen

Best Career and Education Web Sites Rachel Singer Gordon,Anne Wolfinger,2004 The Internet is loaded with information to help you find a job choose a school or learn about careers That s great if you know how to find what you re looking for But if you don t it s easy to get bogged down in information overload That s where this book comes in In this all new fourth edition we ve researched and reviewed the many thousands of career job search and education sites on the Web and include only the very best places for solid information and advice No more wading through site after site this book has already done all of the hard work for you Book jacket
