Proceedings of the International Conference on Law Reform (5th Inclar 2024) Sholahuddin Al Fatih, Hilaire Tegnau, Muhammad Helmi Bin Md Said, Nur Rohim Yunus, Abdullah Saeed, Fokke J. Fernhout, Teng Junaidi Gunawan, M. Najih, Jady Zaidi Hassim, Dewa Gede Sudika Mangku, Hasnan Bachtiar, Fifik Wiryani, Hikmahanto Juwana, Sonny Zulhuda, Muhammad Fauzan, 2025-02-27 This book is an open access Law is a set of rules made to foster regularity and guarantee safety and certainty for citizens The existence of Law is intended to maintain social order and control societal changes into something as expected Both law and humanity are inextricable and they work in harmony Therefore the formulation and enforcement must take place simultaneously This view is relevant to the idea of Prof Satjipto Raharjo in his progressive legal theory believing that law is born for human beings not the other way around In other words the law should keep moving to maintain the people's welfare and to ensure that the certainty justice and utility of the law are guaranteed Recently the world has been faced with seemingly unstoppable humanitarian crises Prolonged conflict has caused severe losses affecting physical economic and psychological conditions and no diplomatic and repressive actions have managed to stop this issue In such a situation the law should play its role in protecting those affected by this inhuman conflict However international and national laws seem to be left as nothing but mere meaningless written rules that fail to address this existing problem In such a situation humanity is being disrupted which it sees a change of meaning triggering a critical situation and blurring it This situation also indicates that these days humanity is facing challenges Departing from this perspective the Faculty of Law Universitas Muhammadiyah Malang holds the 5th International Conference of Law and Call for Papers with the Theme Redefining Humanity Values as the Basis of Legal Reasoning Challenges in the Disruption Era From this conference we expect to welcome more ideas of redefining the significance of humanity toward the law in the existing challenges

Four Battlegrounds Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club's Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today's great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that

effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order
