Katz,Alexander Burry,2022-04-05 Offers techniques for teaching Dostoevsky's Crime and Punishment in undergraduate graduate and high school classrooms Topics include ethics gender money Orthodox Christianity psychoanalysis social justice teaching in prison and the use of digital media and film adaptations

Raskolnikov's Rebirth İlham Dilman,2000 Author İlham Dilman explains why a thoughtful psychology encompassing the varied modes of being experienced by humans is the best tool for investigating the nature of good and evil To illustrate he employs Raskolnikov Dostoyevsky's axe murdering protagonist in Crime and Punishment following his alienation from goodness his return to it and finally his ethical rebirth *Crime and Punishment - Fyodor Dostoevsky* Harold Bloom,2009 Presents a series of critical essays discussing the structure themes and subject matter of Dostoevsky's novel of murder and guilt The Mathematical Mind of F. M. Dostoevsky Michael Marsh-Soloway,2024-11-19 This book examines reconstructs the curriculum and readings that F M Dostoevsky encountered during his studies at the Main Engineering School in St Petersburg in 1838 1843 and connects such sources to the mathematical references and themes in his published works

Nabokov & Others William Woodin Rowe,1979 *Twentieth Century Interpretations of Crime and Punishment* Robert Louis Jackson,1973 A slender volume in which several international critics write their opinions and interpretations of this classic Russian novel Understanding Crime Susan Guarino-Ghezzi,A. Javier Trevino,2014-09-25 Explores the interdisciplinary nature and potential of the field of criminology covering the fields of sociology economics psychology biology philosophy and religious studies The conclusion demonstrates various theoretical approaches for policy development and discusses opportunities for incorporating academic contributions into the political process **Crime and Punishment** Edward Wasiolek,1964 *Algebra of Conscience* V.A. Lefebvre,2013-04-17 Conscience is an essential human attribute Nevertheless in the construction of formal models of the subject it is customarily left outside the framework of theoretical analysis The Algebra of Conscience whose first edition appeared in 1982 was the first specialized work modeling the phenomenon of conscience The method used in this book made it possible to connect moral experience with decision making procedures on the level of mathematical models The application of such models allows us to propose the hypothesis of two fundamentally different ethical systems determining the normative patterns of human behavior in situations of conflict Under the first ethical system the subject's self esteem is raised if the subject seeks to resolve the conflict in the second it is raised by seeking to dramatize the conflict The new edition of The Algebra of Conscience is significantly expanded The second part of the book devoted to moral choice is completely new Based on the theory presented in the first part it constructs the model of a subject capable of making an intentional choice A special variable corresponds to the subject's intention This development allows us to include within the model freedom of will and freedom of choice and also to generalize classical 2 2

game theory to the case where outcomes in addition to having utility measures are either positive or negative In its concluding chapters the book constructs a dynamic model of the intentional subject faced with a choice between two alternatives neither of which is morally acceptable for the subject It is shown that in this case the probabilities of choice of the alternatives may change chaotically From this it follows that one cannot predict which alternative will be chosen or even the probabilities with which they will be chosen Audience The book is addressed to a broad readership having elementary knowledge of mathematical logic and the theory of probability It can be used in college courses studying the modelling of moral choice The book s material can also be used in the design of artificial intelligence systems Gale Contextual Encyclopedia of World Literature Anne Marie Hacht,Dwayne D. Hayes,2009 Covers world authors from many periods and genres building an understanding of the various contexts from the biographical to the literary to the historical in which literature can be viewed Identifies the significant literary devices and global themes that define a writer s style and place the author in a larger literary tradition as chronicled and evaluated by critics over time **CRIME AND PUNISHMENT AND THE CRITICS** ,1961 Re-reading Dostoyevsky IñUñriñ Kariñañkin,1971 **Humor in the Major Novels of F.M. Dostoevsky** Robert Louis Busch,1987 **The Novels of Fyodor Dostoevsky: Crime and punishment** Fyodor Dostoyevsky,1959 *Masterpieces of Western Literature: Shakespeare to Eliot* Alex Page,Leon Barron,1966 Shakespeare to Eliot Alex Page,Leon Barron,1966 **The Dostoevsky Journal** ,2005 **The Chimera** William Arrowsmith,James Fearon Brown,1942 The Chimera ,1966
