Rational Ancestors Scientific Rationality And African Indigenous Religions:

Rational Ancestors James Leland Cox, 1998 This text explores the ways in which science as a confession of faith interacts with the faith of indigenous Africans to produce a horizon of understanding Part One contains the author's own analyses and application of theories relevant to the study of African indigenous religions Parts Two and Three are comprised of edited versions of the oral literature and ritual descriptions obtained by phenomenology students in the University of Zimbabwe in 1991 and 1992

Karanga Indigenous Religion in Zimbabwe Tabona Shoko, 2016-04-22 Tabona Shoko contends that religion and healing are intricately intertwined in African religions This book on the religion of the Karanga people of Zimbabwe sheds light on important methodological issues relevant to research in the study of African religions Analysing the traditional Karanga views of the causes of illness and disease mechanisms of diagnosis at their disposal and the methods they use to restore health Shoko discusses the views of a specific African Independent Church of the Apostolic tradition The conclusion Shoko reaches about the central religious concerns of the Karanga people is derived from detailed field research consisting of interviews and participant observation This book testifies that the centrality of health and well being is not only confined to traditional religion but reflects its adaptive potential in new religious systems manifest in the phenomenon of Independent Churches Rather than succumbing to the folly of static generalizations Tabona Shoko offers important insights into a particular society upon which theories can be reassessed adding new dimensions to modern features of the religious scene in Africa

Critical Reflections on Indigenous Religions James L. Cox, 2016-04-22 The study of indigenous religions has become an important academic field particularly since the religious practices of indigenous peoples are being transformed by forces of globalization and transcontinental migration This book will further our understanding of indigenous religions by first considering key methodological issues related to defining and contextualizing the religious practices of indigenous societies both historically and in socio cultural situations Two further sections of the book analyse cases derived from European contexts which are often overlooked in discussion of indigenous religions and in two traditional areas of study South America and Africa

A Phenomenology of Indigenous Religions James L. Cox, 2022-02-24 This book compiles James L. Cox's most important writings on a phenomenology of Indigenous Religions into one volume with a new introduction and conclusion by the author Cox has consistently exemplified phenomenological methods by applying them to his own field studies among Indigenous Religions principally in Zimbabwe and Alaska but also in Australia and New Zealand Included in this collection are his articles in which he defines what he means by the category religion and how this informs his precise meaning of the classification Indigenous Religions These theoretical considerations are always illustrated clearly and concisely by specific studies of Indigenous Religions and their dynamic interaction with contemporary political and social circumstances This collection demonstrates the continued relevance of the phenomenological method in the study of religions by presenting the method as dynamic and adaptable to contemporary social contexts and as responsive to

intellectual critiques of the method
