Selected Poems 1947198:

A Selected Bibliography of Scholarly Literature on Colonial Louisiana and New France Glenn R. Conrad, Carl A. Brasseaux, University of Southwestern Louisiana. The Dream of the Great American Novel Lawrence Buell, 2014-02-10 The idea of the great American novel continues to thrive almost as vigorously as in its nineteenth century heyday defying 150 years of attempts to dismiss it as amateurish or obsolete In this landmark book the first in many years to take in the whole sweep of national fiction Lawrence Buell reanimates this supposedly antiquated idea demonstrating that its history is a key to the dynamics of national literature and national identity itself The dream of the G A N as Henry James nicknamed it crystallized soon after the Civil War In fresh in depth readings of selected contenders from the 1850s onward in conversation with hundreds of other novels Buell delineates four scripts for G A N candidates One illustrated by *The Scarlet Letter* is the adaptation of the novel's story line by later writers often in ways that are contrary to the original author's own design Other aspirants including *The Great Gatsby* and *Invisible Man* engage the American Dream of remarkable transformation from humble origins A third script seen in *Uncle Tom's Cabin* and *Beloved* is the family saga that grapples with racial and other social divisions Finally mega novels from *Moby Dick* to *Gravity's Rainbow* feature assemblages of characters who dramatize in microcosm the promise and pitfalls of democracy The canvas of the great American novel is in constant motion reflecting revolutions in fictional fashion the changing face of authorship and the inseparability of high culture from popular As Buell reveals the elusive G A N showcases the myth of the United States as a nation perpetually under construction **Subject Catalog** Library of Congress, 1979

Civic Jazz Gregory Clark, 2015-02-25 Jazz is born of collaboration improvisation and listening In much the same way the American democratic experience is rooted in the interaction of individuals It is these two seemingly disparate but ultimately thoroughly American conceits that Gregory Clark examines in *Civic Jazz* Melding Kenneth Burke's concept of rhetorical communication and jazz music's aesthetic encounters with a rigorous sort of democracy this book weaves an innovative argument about how individuals can preserve and improve civic life in a democratic culture Jazz music Clark argues demonstrates how this aesthetic rhetoric of identification can bind people together through their shared experience in a common project While such shared experience does not demand agreement indeed it often has an air of competition it does align people in practical effort and purpose Similarly Clark shows Burke considered Americans inhabitants of a persistently rhetorical situation in which each must choose constantly to identify with some and separate from others Thought provoking and path breaking Clark's harmonic mashup of music and rhetoric will appeal to scholars across disciplines as diverse as political science performance studies musicology and literary criticism **Revolutions in Verse** Isobel Palmer, 2024-11-15 How modernist interartistic experimentation and the proliferation of new media technologies inspired fresh insights into

poetry Isobel Palmer spotlights Russian modernist poets and formalist theorists conscious engagement with formal convention showing how their efforts were tied up with broader attempts in the early Soviet era to understand and articulate the nature of poetry and its most characteristic devices Returning to critical debates around poetic encounters with three key aesthetic categories rhythm image and voice Palmer unpacks the period s deeper interest in the material bases of poetic speech itself Through fresh incisive readings of canonical poets and theorists from Andrei Bely and Vladimir Mayakovsky to Yuri Tynianov and Viktor Shklovsky *Revolutions in Verse The Medium of Russian Modernism* explores the proliferation of interartistic experiments and the emergence of new media technologies that made poetry visible as a medium in its own right
