Self-Assessment Color Review of Small Mammals Susan A. Brown, Karen L. Rosenthal, 1997 Veterinary practitioners are faced regularly by diseases and disorders in a large and ever increasing range of small mammal patients as pets in laboratories and breeding colonies in zoos and in the wild In gathering together contributions from 29 experts the editors deal with all aspects of medicine and surgery in small mammals giving due respect to common species such as rabbits guinea pigs hamsters hedgehogs ferrets and mice without ignoring primates squirrels foxes potbellied pigs raccoons and many more The self assessment format is used to reflect experience in practice and to enable the reader to think through each case from first principles Each of the 225 questions and illustrations color photos imaging charts and tables is followed by a thorough explanation to provide diagnosis and a suggested treatment plan

Clinical Radiology of Exotic Companion Mammals Vittorio Capello, Angela M. Lennox, 2013-03-22 Radiology is a routine diagnostic procedure in all fields of clinical veterinary practice and exotic medicine is no exception Besides an increasing interest and concurrent demand for a higher level of care of these species very little is reported in the scientific literature about normal radiographic patterns and radiographic abnormalities are generally limited to case reports Clinical Radiology of Exotic Companion Mammals is designed to fill this gap It provides a practical resource for veterinarians wishing to add these special species to their clinical practice and a ready reference for those already including those species among their caseload Clearly labeled normal images will aid anyone interested in comparative radiographic anatomy and the techniques section will help overcome difficulties related to the smaller size of many exotic companion mammals Features of the book include wide range of exotic mammal species beyond ferrets rabbits and rodents including species such as marsupials hedgehogs and potbellied pigs a review of the basic principles of radiology equipment radiologic techniques and patient positioning helpful for optimizing exotic companion mammal radiography an extensive review of both normal and pathologic radiographic patterns Some of the latter are accompanied by clinical or surgical images to aid the practitioner in

familiarization with a wide range of both common and uncommon lesions **Journal of the American Veterinary Medical Association** American Veterinary Medical Association,2015 Self-Assessment Color Review of Reptiles and Amphibians Fredric L. Frye,David L. Williams,1995 With the great increase worldwide in the number and variety of reptiles and amphibians kept as pets in collections or for research veterinary practitioners are expected to have a good knowledge of the medicine needed to treat them This Self Assessment Color Review presents the reader with over 250 short cases using high quality color photographs and questions pitched at various levels of expertise plus detailed explanatory answers The cases appear randomly just as in real life and allow the reader by solving the clinical puzzle to make differential diagnoses treatment plans and prognoses Both authors are internationally renowned and Dr Frye is a world authority on reptile and amphibian medicine Practitioners and students at all levels as well as herpetologists professional and amateur will find in this Color Review a wealth of problem oriented material to learn from and enjoy in their formal and informal training and continuing education **Cardiovascular Disease in Companion Animals** Wendy A.
