Selfreliant Future For Canada:

A Self-reliant Future for Canada Jack Biddell,1993 *The Canadian forum* ,1984 *Continentalizing Canada* Gregory J. Inwood,2005-01-01 Free trade has been a highly contentious issue since the Conservative government of Brian Mulroney negotiated the first deal with the United States in the 1980s Tracing the roots of Canada s contemporary involvement in North American free trade back to the Royal Commission on the Economic Union and Development Prospects for Canada in 1985 also known as the Macdonald Commission Gregory J Inwood offers a critical examination of the commission and how its findings affected Canada s political and economic landscape including its present day reverberations Using original research including content analysis interviews archival information and surveys of relevant literature Inwood argues that the Macdonald Commission created an atmosphere and political discourse that made the continentalization of Canada possible by way of free trade agreements with the U S and Mexico Through the use of a suspect research program and with the aid of a select oligarchy within the Commission and the government bureaucracy opposition to continentalism from both the majority of the Canadian population and even several commissioners was ignored Accessible to readers interested in Canadian politics policy or economy *Continentalizing Canada* offers a thorough examination into the Macdonald Commission and the resulting discourse in the Canadian political economy *Annual Report - Atomic Energy of Canada Limited* Atomic Energy of Canada Limited,1986 *Transitioning From Globalized to Localized and Self-Reliant Economies* Gupta, Ruchika,Srivastava, Priyank,Ranjan, Shiv,Badar, M. Affan,2021-12-17 The outbreak of COVID 19 had a profound impact on global economic growth Global trade has transformed drastically and will only continue to do so as countries vote on export and import decisions based on global competition Many countries would be compelled to reconsider multi country trade deals as internal interests will push and dictate them More important than ever it is imperative that self reliant economies be investigated specifically in the post COVID 19 era in order to understand the impacts made on international ties and trade agreements *Transitioning From Globalized to Localized and Self Reliant Economies* is a comprehensive reference source that looks at how economies are now moving towards becoming self reliant especially in the wake of the COVID 19 pandemic Covering topics such as digitalization technological innovation and personal finance this is a beneficial resource for economists executives managers government officials policymakers entrepreneurs IT departments human resource managers CEOs students researchers and academicians **History, Literature and the Writing of the Canadian Prairies** Alison Calder,Robert Wardhaugh,2005-05-16 The Canadian Prairie has long been represented as a timeless and unchanging location defined by settlement and landscape Now a new generation of writers and historians challenge that perception and argue instead that it is a region with an evolving culture and history In a collection of ten essays *History Literature and the Writing of the Canadian Prairies* explores a more contemporary prairie identity and reconfigures the prairie as a construct that is non linear and diverse responding to the impact of geographical historical and political currents These writers explore

the connections between document and imagination between history and culture and between geography and time The subjects of the essays range widely the non linear structure of Carol Shield s The Stone Diaries the impact of Aberhart s Social Credit Marshall McLuhan and Mesopotamian myth on Robert Kroetsch s prairie postmodernism the role of document in long prairie poems the connection between cultural tourism and heritage the theme of regeneration in Margaret Laurence s Manawaka writing the influence of imagination on geography in Thomas Wharton s Icefields and the effects on an alpine climber of pre WWII ideological concepts of time and individualism
