**The Future of the Postal Sector in a Digital World** Michael Crew, Timothy J. Brennan, 2015-11-28 Worldwide postal operators have been slow to address the threats from and opportunities created by electronic competition The European Commission and member states are wrestling with these issues while at the same time continuing to deal with the interrelated issues of implementing entry into postal markets and maintaining the universal service obligation The Postal Accountability and Enhancement Act of 2006 in the U S exacerbated financial and managerial problems faced by USPS that result in part from electronic substitution for letter delivery A major aim of this book is to examine policies to address postal operations in a digital world and ways in which postal operators might reinvent themselves to respond to threats and exploit opportunities Potential opportunities examined include parcels e commerce digital delivery regulatory innovations and pricing This book will be of interest to postal operators regulatory commissions consulting firms competitors and customers experts in the postal economics law and business and those charged with the responsibility for designing and implementing postal sector policies Researchers in regulatory economics transportation technology and industrial organization will also find considerable food for thought in this volume *The Titanic Effect* Todd Saxton, M. Kim Saxton, Michael

Cloran, 2019-03-05 I have read dozens of books on starting companies but this is the first that accurately captures why startups fail and provides a tool for entrepreneurs and investors to measure and manage these sources of failure Michael Hatfield Co Founder Cerent Calix Cienna and Carium What makes a startup successful This book from award winning business school professors and a tech serial entrepreneur tells what makes startups successful Instead of telling startups what to do like most startup books they share what startups should avoid Along the way they share small business startup success stories gleaned from the How Built This Podcast and their firsthand experiences These stories of startup success are contrasted with stories of startup failure from startup graveyards and most notably the Titanic Like many of today s startups the Titanic hoped to disrupt the transportation industry of its time It fell short to a disastrous outcome from the same sources that prevent startup success today Get a startup game plan This startup book uses the Titanic and a sailing metaphor to provide a startup roadmap template It shows what makes startups successfully navigate through challenges in startup investing founding and hiring with a game plan to get through the Human Ocean It offers a startup guide to customer success in working through the Marketing Ocean It even highlights what startups need to invest in to get through the Technical and Strategy Oceans Its Iceberg Index gives entrepreneurs startups and small businesses a way to track their progress on the startup roadmap template It also helps investors assess what startups to invest in Many entrepreneurs assume that the Titanic was sunk by a single iceberg The Titanic Effect shows that like many startups it s not a single misstep but a series of mistakes that keep a startup from being successful This combination of missteps is called the Titanic Effect Who can benefit from this startup roadmap Entrepreneurs in the early stages of building a startup They will learn what

makes a startup successful They will develop a to do list of decisions to make and actions to take Small business owners will also identify key next steps to building their startup game plan Investors can identify what to avoid in startup investments and what startups to invest in Students will learn how to evaluate the success potential of a startup and will read small business and startup success stories These three co authors have witnessed firsthand what leads to startup success They have made it their mission to help entrepreneurs startup founders and startup investors succeed Drs Todd and M Kim Saxton bring more than two decades of academic and professional experience in business strategy entrepreneurship marketing and angel investing Serial tech entrepreneur Michael Cloran adds his two decades of experiences in launching his own startups as well as building software products for other startups In addition the co authors serve on various boards of entrepreneurial ventures and startup advisory associations They have shared their expertise from the stage to dozens of audiences including students entrepreneurship and professional development associations academic societies and global companies like Roche Diagnostics and Pfizer Pharmaceuticals [Broadcasting](#) ,1982-07 [You Should Quit Reddit](#) Jacob Desforges,2023-02-21 In recent years countless books articles and documentaries have addressed the negative effects that social media platforms have wrought on their users and society However these former works are incomplete nearly no attention has been paid to Reddit one of the most popular websites in the world Reddit is certainly unique among social platforms but its potential for addiction and darker side of nefarious activity should absolutely not be understated Additionally nearly no actionable advice has been provided to users of these platforms The audience is told that these websites and apps are harming their mental health wasting their time and that they are addictive which would logically make the task of quitting rather difficult but then provided zero guidance on how to disconnect from them Over 200 000 users gather on Reddit s r NoSurf community to discuss reducing their internet use the forum is filled with reports of people who want to quit Reddit but find themselves psychologically compelled to return to the site over and over For moderate to heavy users of these platforms quitting is clearly not so simple You Should Quit Reddit is a paradigm shift in the genre Jacob Desforges was a Reddit user of over a decade and a self admitted Reddit addict who spent on average around three hours daily on the site Not only is this the first book investigating Reddit s flaws as a platform but it is also written from the perspective of someone who experienced firsthand the struggle that comes with quitting these addictive platforms This book therefore also provides readers with the practical advice tools and techniques needed to shatter the cycle of digital addiction enabling them to quit visiting Reddit and other time wasting websites for good so they can effectively reclaim their time to use in a more intentional manner

**With a Twist** Georgia Beers, 2022-04-12 Amelia Martini's favorite things are traveling, animals and peanut butter. When she left her job to explore the world with her wife, she didn't expect Tammy's plans to include leaving her. Now Amelia is starting over again and facing middle age alone. It's a struggle, but she doesn't want to be bitter forever. Thirty-something Kirby Dupree loves life. Not always easy when you've lost as much as she has and carry as much sadness as she does. But she made a promise to always look for beauty, so she does her best even when she has to squint to see it. When Kirby's job as an interior painter brings her into Amelia's life, they don't exactly hit it off. Amelia finds Kirby irritatingly cheerful and Kirby thinks Amelia's far too serious. Forced to work together, they start to see beyond their first impressions and prove opposites really do attract. But are they brave enough to go after the love they really want?

*Your Boss Is an Algorithm* Antonio Aloisi, Valerio De Stefano, 2022-07-14 What effect do robots, algorithms and online platforms have on the world of work? Using case studies and examples from across the EU, the UK and the US, this book provides a compass to navigate this technological transformation as well as the regulatory options available and proposes a new map for the era of radical digital advancements. From platform work to the gig economy and the impact of artificial intelligence, algorithmic management and digital surveillance on workplaces, technology has overwhelming consequences for everyone's lives, reshaping the labour market and straining social institutions. Contrary to preliminary analyses forecasting the threat of human work obsolescence, the book demonstrates that digital tools are more likely to replace managerial roles and intensify organisational processes in workplaces rather than opening the way for mass job displacement. Can flexibility and protection be reconciled so that legal frameworks uphold innovation? How can we address the pervasive power of AI-enabled monitoring? How likely is it that the gig economy model will emerge as a new organisational paradigm across sectors? And what can social partners and political players do to adopt effective regulation? Technology is never neutral. It can and must be governed to ensure that progress favours the many. Digital transformation can be an essential ally from the

warehouse to the office but it must be tested in terms of social and political sustainability not only through the lenses of economic convenience Your Boss Is an Algorithm offers a guide to explore these new scenarios their promises and perils

**Young Consumer Behaviour** Ayantunji Gbadamosi, 2017-11-22 Although one perspective depicts young consumers as vulnerable and passive in the marketplace system our knowledge of this consumer group will be inadequate if limited to this contention Their roles and relevance in family consumption activities are becoming increasingly profound Available evidence shows that they cannot be ignored in the marketplace dynamics as they consume goods and services in their households and are involved in various other active roles in their household consumption including making decisions where applicable Hence the landscape of young consumer behaviour is changing Young Consumer Behaviour A Research Companion focusses on exploring the behaviour of young consumers as individuals and societal members The chapters address different aspects of consumption activities of children as individuals like motivation involvement perception learning attitude the self and personality Similarly chapters on consumer behaviour in social settings contextualised to young consumers including culture sub culture family and groups are incorporated into the book This book fills a gap in the literature by addressing the dynamics of consumption patterns of this consumer group in relation to various marketing stimuli and different stakeholders It combines eclectic perspectives on the topic and specifically bridges the gap between historical perspectives and contemporary issues Building on the extant literature in the field of marketing and consumer behaviour this book is a compendium of research materials and constitutes an essential reference source on young consumer behaviour issues with both academic and managerial implications
