**A Seamless Web** Cheryll May, 2014-03-17 In recent years American art scholars have increasingly focused on the importance of cross cultural exchanges during the nineteenth century As essayist Fran ois Brunet puts it mid nineteenth century landscapes were transnational permeated by complex transactions where American originality produced itself not only in imitation of or reaction against European influences but as critical mirroring and incorporating of European images Articles in this collection make clear that the conversation of cultures went both ways with American artworks and culture also affecting European artistic and literary practice Essays explore the transnational origin of many types of American artworks from stained glass windows which usually copied their European originals with great exactitude to paintings and sculptures using distinctly American motifs such as the Puritan and the cowboy to distinguish American art students from their Parisian masters It also examines American cultural icons particularly the American Indian appropriated by European writers artists and philosophers to embody primeval wisdom A distinguished international group of scholars including Brunet Robert Rydell and Peter Gibian offer valuable perspectives on the ever broadening field of transnational cultural studies

**MIRROR AND THE PALETTE.** JENNIFER. HIGGIE, 2021 **American Women Photographers** Martha Kreisel, 1999-02-28 American women have made significant contributions to the field of photography for well over a century This bibliography compiles more than 1 070 sources for over 600 photographers from the 1880s to the present As women s role in society changed so did their role as photographers In the early years women often served as photographic assistants in their husbands studios The photography equipment initially heavy and difficult to transport was improved in the 1880s by George Eastman s innovations With the lighter camera equipment photography became accessible to everyone Women photographers became journalists and portraitists who documented vanishing cultures and ways of life Many of these important female photographers recorded life in the growing Northwest and the streets of New York City became pioneers of historic photography as they captured the plight of Americans fleeing the Dust Bowl and the horrors of the concentration camps and were members of the Photo Secessionist Movement to promote photography as a true art form This source serves as a checklist for not only the famous but also the less familiar women photographers who deserve attention *A Corpus of*

*Rembrandt Paintings* J. Bruyn, B. Haak, S.H. Levie, P.J.J. van Thiel, 2013-05-14 Since the second half of the last century art historians realizing that the image of Rembrandt's work had become blurred with time have attempted to redefine the artist's significance both as a source of inspiration to other artists and as a great artist in his own right. In order to carry on the work started by previous generations a group of leading Dutch art historians from the university and museum world joined forces in the late 1960s in order to study afresh the paintings usually ascribed to the artist. The researchers came together in the Rembrandt Research Project which was established to provide the art world with a new standard reference work which would serve the community of art historians for the nearby and long future. They examined the originals of all works attributed to Rembrandt taking full advantage of today's sophisticated techniques including radiography, neutron activation, autoradiography, dendrochronology and paint sample analysis, thereby gaining valuable insight into the genesis and condition of the paintings. The result of this meticulous research is laid down chronologically in the following Volumes: A Corpus of Rembrandt Paintings Volume I which deals with works from Rembrandt's early years in Leiden 1629-1631 published in 1982; THIS VOLUME A Corpus of Rembrandt Paintings Volume II covering his first years in Amsterdam 1631-1634 published in 1986; A Corpus of Rembrandt Paintings Volume III goes into his later years of reputation 1635-1642 published in 1990. Each Volume consists of a number of Introductory Chapters as well as the full Catalogue of all paintings from the given time period attributed to Rembrandt. In this catalogue each painting is discussed and examined in a detailed way comprising a descriptive, an interpretative and a documentary section. For the authenticity evaluation of the paintings three different categories are used to divide the works: A Paintings by Rembrandt; B Paintings of which Rembrandt's authorship cannot be positively either accepted or rejected; and C Paintings of which Rembrandt's authorship cannot be accepted. This volume, Volume II, contains 900 pages starting with five introductory chapters and discussing 101 paintings. In clear and accessible explanatory text all different paintings are discussed, larded with immaculate images of each painting. Details are shown where possible as well as the results of modern day technical imaging.

**Baroness Elsa** Irene Gammel, 2003-08-29 The first biography of the enigmatic dadaist known as the Baroness Elsa von Freytag Loringhoven. Elsa von Freytag Loringhoven 1874-1927 is considered by many to be the first American dadaist as well as the mother of dada. An innovator in poetic form and an early creator of junk sculpture, the Baroness was best known for her sexually charged, often controversial performances. Some thought her merely crazed, others thought her a genius. The editor Margaret Anderson called her perhaps the only figure of our generation who deserves the epithet extraordinary. Yet despite her great notoriety and influence until recently her story and work have been little known outside the circle of modernist scholars. In *Baroness Elsa* Irene Gammel traces the extraordinary life and work of this daring woman, viewing her in the context of female dada and the historical battles fought by women in the early twentieth century. Striding through the streets of Berlin, Munich, New York and Paris wearing such adornments as a tomato soup can bra, teaspoon earrings and black lipstick, the Baroness erased the boundaries between life

and art between the everyday and the outrageous between the creative and the dangerous Her art objects were precursors to dada objects of the teens and twenties her sound and visual poetry were far more daring than those of the male modernists of her time and her performances prefigured feminist body art and performance art by nearly half a century      **Spectacular Flirtations** Gillian Perry, 2007 During the Georgian period there was a remarkable proliferation of seductive visual imagery and written accounts of female performers Focusing on the close relationship between the dramatic and visual arts at this time this beautiful and stimulating book explores popular ideas of the actress as coquette whore celebrity muse and creative agent charting her important symbolic role in contemporary attempts to professionalize both the theatre and the practice of fine art Gill Perry shows how artists such as Gainsborough Reynolds Hoppner or Lawrence produced complex images of female performers as fashion icons coquettes dignified queens or creative artists The result is a rich interdisciplinary study of the Georgian actress Published for the Paul Mellon Centre for Studies in British Art
