**Your Cover Letter Is Being Deleted in 6 Seconds Here's How to Stop It** Mark Carl, 2025-12-06 You spend hours perfecting your cover letter crafting thoughtful paragraphs about your passion and fit Then it gets deleted without being read Hiring managers are overwhelmed with applications and your generic cover letter looks like every other one in their inbox They scan for a reason to keep reading find none and move on Meanwhile the candidate who wrote a brief compelling letter that spoke directly to their specific need gets the interview The problem is not that cover letters do not matter It is that most job seekers write cover letters the way they were taught decades ago formal verbose and focused on what they want instead of what the employer needs This book reveals how hiring managers actually approach cover letters and shows you how to write one that breaks through the noise gets read and gets you noticed You will learn why most cover letters fail how to instantly grab attention in the opening line and how to structure your letter so it communicates value instead of repeating your resume The book walks you through researching the company and role deeply so your letter feels personalized and specific not generic You will discover how to tell a compelling story about why you are interested in this exact position how to highlight accomplishments that directly address the role's needs and how to close with confidence instead of desperation
