L. Oldhoff, 2024-06-10 Theology of the Soul engages with a thoroughly theological and philosophical subject in fresh and profound ways the soul The author examines the possibility of a concept of the soul in modern Western theology In the second part of the 20th century speaking about the soul was strongly criticized in Theology and Philosophy Consequently many academic theologians consider the word soul problematic Remarkably the word soul is very much present in contemporary culture This book takes cultural notions of the soul as employed by for example Marilynne Robinson and Oprah Winfrey as a point of departure The author then investigates the functions of the soul in classical theologies and provides elucidating overviews of the ways in which the soul is discussed and problematized in contemporary Philosophy and Biblical Studies After introducing the apostle Paul as conversation partner she reconsiders various contemporary concepts from a Pauline perspective and offers a constructive systematic theological proposal to speak of the soul in today's modern theological and cultural contexts This interdisciplinary study integrates continental and analytic methods and discussions on the soul in Philosophy and Theology providing a very comprehensive study of the soul *Sports and Play in Christian Theology* Philip Halstead, John Tucker, 2020-11-24 Sport is a

major preoccupation of the modern world It consumes the time and energies of millions of people around the globe In fact for many participants it operates much like a functional equivalent of religion giving them a way to interpret and understand the world Sports stadiums are the cathedrals of our time Sports stars are the saints or demi gods through whom we access the transcendent Members of the sports media serve as religious scribes and sports fans are the worshipping faithful What is true of sport is also true more generally of play Nevertheless and quite remarkably Christian theologians and religious historians have been surprisingly slow to recognize the spiritual and cultural significance of sport and play or to engage in the study of these concepts This book attempts to redress that neglect by integrating sport and play with Christian faith and practice In *Sports and Play in Christian Theology* ten Christian scholars and practitioners explore sport and play from theological biblical historical and pastoral perspectives This rich collection of wide ranging reflections and focused case studies will help readers locate sport and play within Christian faith and practice *Personal Identity and Resurrection* Georg Gasser, 2016-09-17

What happens to us when we die According to Christian faith we will rise again bodily from the dead This claim raises a series of philosophical and theological conundrums is it rational to hope for life after death in bodily form Will it truly be we who are raised again or will it be post mortem duplicates of us How can personal identity be secured What is God's role in resurrection and everlasting life In response to these conundrums this book presents the first ever joint work of leading philosophers and theologians on life after death This is an impressive demonstration of interdisciplinary cooperation between philosophy and theology Various models are offered which depict what resurrection into an incorruptible post mortem body might look like Therefore this book is an indispensable resource for anyone interested in the doctrine of bodily resurrection be they philosophers theologians scholars in religious studies or believers interested in examining their faith *God, Souls, and Consciousness* Joshua R. Farris, 2025-10-15 This book provides a critique of naturalistic views of subjects and agency arguing that these are conditioned ways of conceiving of the mind and the cosmos It draws on the relevant literature on substance dualism idealism and theism to draw out the implications for a theistic view of the world In contemporary analytic philosophy of mind naturalism is the default position for thinking about the mind in relation to the world This book argues that we should reconsider naturalistic paradigms in favor of a more holistic and bigger picture of the mind It defends a form of theistic dualism in light of varying naturalistic trends that arguably place limiting pressures on our constructive views of humans as ensouled beings The book takes seriously the notion of first person phenomenological perspectives as the starting point for constructing a metaphysical view of the world The author's arguments touch on the topics of consciousness dualism cosmic purpose science and religion and the meaning of life He proceeds to explore the implications of deconditioning on the philosophy of mind theism science and the social sciences *God Souls and Consciousness* will appeal to scholars and graduate students working in the philosophy of mind philosophy of religion religion and science and analytic theology

Religious Traditions and Personal Stories Uta Blohm, 2005 Women in roles of religious leadership represent a relatively new phenomenon within Judaism and Christianity and to some extent a break with traditional assumptions The study gives insight into how women are defining themselves as religious leaders and women within the context of patriarchal religion The research is based on 50 qualitative interviews with women rabbis Anglican priests and other Christian ministers Some of the issues discussed concerning role ordination and tradition are unrelated to gender Christian interviewees describe their journeys into the ministry or priesthood predominantly as experiences of vocation whereas rabbis choose the rabbinate out of an interest in Jewish studies and in the role itself With regard to gender women across the religious divide are facing opposition and are dealing with similar religious questions of inclusive language or the impact of traditional female roles
