Q. Lou, 2015-02-04 There are several unique features of this book on the spiritual well being of Chinese older adults First based on qualitative methodology a conceptual model of spiritual well being was proposed Besides through a Delphi study different dimensions of spiritual well being were identified Conceptually such effort is important because there is a general lack of well articulated models of spiritual well being for Chinese people Although Western models can be transplanted to Chinese contexts indigenous concepts are needed As such this is a pioneer conceptual contribution Second the author developed and validated the Spiritual Scale for Chinese Elders In view of the lack of related measurement tools in the field this is a pioneer attempt which is important for social work education research and practice Third a Spiritual Enhancement Group for Chinese Elders was developed and its effectiveness was evaluated In contrast to ordinary elderly programs this program was based on solid theoretical grounds In addition process evaluation and outcome evaluation were conducted The intervention program is a beautiful link between theory and practice whereas the evaluation is a good outgrowth of practice The present project is especially valuable because evidence based practice is at its infancy in different Chinese communities *The Nurse's Role in Promoting Optimal Health of Older Adults* Jean W Lange, 2011-09-02 Awarded a 2012 AJN Book of the Year Award Why focus on the negative aspects of growing old while most older adults are leading positive fulfilling and active lives even while dealing with the changes associated with aging and chronic illnesses Promote healthy aging learn what it means to age

successfully and develop the tools and resources that can optimize well being during the later years in life with the guidance you ll find inside The author a nationally recognized expert in the field of gerontology addresses the physical psychosocial and spiritual needs of older adults based on a holistic mid range nursing theory of successful aging Contributions from healthcare professionals in exercise physiology nutrition pharmacy and elder law help you understand how these disciplines work together to benefit patients

Contemporary Perspectives on Adult Development and Aging Alicia Skinner Cook,1983 Abstract A college textbook addresses modern views concerning societal and cultural factors practices and policies concerning a variety of aspects that are encountered in adult development and aging process Following an introductory section on developmental theory age norms and expectations the remaining 10 chapters of the text are grouped among 4 principal themes 1 family and work as primary roles of adulthood 2 continuity and changes with respect to intelligence learning creativity adult sexuality mental and physical health issues longevity death and dying 3 cultural variations and issues during aging covering various ethnic groups and 4 mechanisms for enhancing the adult years including the US government s role in quality of life improvement The developmental stages of early middle and late adulthood are each considered within each of the topics addressed wz

Religious Influences on Health and Well-Being in the Elderly K. Warner Schaie, PhD,Alan Booth, PhD,2004 What makes the book s approach so captivating is that each chapter is written by a different researcher in the study of religion and health These researchers are responsible for significant portions of the existing literature and methodologies found in this field today The versatility of the book warrants special mention It is effective as a

survey of work that has already been done on this topic At the same time it serves as a wellspring of ideas for new research This work makes a valuable contribution to the present understanding of research on religion and health It also serves as a road map to help chart directions for future endeavors in the field Sociology of Religion This volume focuses on the ways in which religious institutions religious practices and religious organizations impact the health and well being of older persons Topics examined include the conceptualization and measurement of religion in late life the relationship between religious coping and possible stress reduction the role of forgiveness as an alternate mediator how social class gender and race can influence the specific effect of religion and religious institutions in a diverse aging society Contributors include L Chatters K Ferraro L K George E Idler S McFadden and K Meador

Making Sense of Spirituality in Nursing Practice Wilfred McSherry, 2000 It is increasingly recognised that caring for the spiritual needs of patients is a highly significant yet often neglected and misunderstood aspect of nursing care This is in part due to the lack of guidance and instruction which nurses receive regarding this sensitive and personal aspect of our lives This book aims to provide an accessible introduction to issues concerning the spiritual dimension of nursing practice It draws extensively on case studies illustrating applications to practice and encourages the reader to explore through reflective activities what spirituality means to them and to the patients they care for Stimulating and challenging and based on the authors own extensive research this book will be the perfect introduction to spiritual care for nurses in all areas of practice Readable introduction to complex and often poorly understood area of practice Extensive use of case studies and activities Fully referenced with annotated further reading Research based
