classical and patristic works by Anglo Saxon authors themselves After setting out the problems entailed in using such evidence the book provides appendices containing editions of all surviving Anglo Saxon inventories lists of all Anglo Saxon manuscripts exported to continental libraries during the eighth century and then all manuscripts re imported into England in the tenth as well as a catalogue of all citations of classical and patristic literature by Anglo Saxon authors A comprehensive index arranged alphabetically by author combines these various classes of evidence so that the reader can see at a glance what books were known where and by whom in Anglo Saxon England The book thus provides within a single volume a vast amount of information on the books and learning of the schools which determined the course of medieval literary culture
