Quantitative Ethology:

Quantitative Ethology David McFarland, Alasdair Houston, 1981-01-01 **Quantitative Ethology** Patrick W.

Colgan, 1978-07-10 This volume brings together in one place for the first time the variety of advanced quantitative techniques available to the ethologist and worker in allied fields Topics include data collection estimation of the behavioral repertoire of an animal the measurement of the amount of information transferred in communicative acts the quantitative study of durations intervals latencies and sequences of stimuli and responses use of cluster analysis to study response types analyzing multidimensional contingency tables multidimensional scaling and multivariate analysis based on multinormal populations

Animal Behavior Desk Reference Edward M. Barrows, 2000-12-28 Revised and updated containing over 5 000 entries with over 1 100 more entries than in the previous edition Animal Behavior Desk Reference Second Edition A Dictionary of Behavior Ecology and Evolution provides definitions for terms in animal behavior biogeography evolution ecology genetics psychology statistics systematics and other *Handbook of Ethological Methods* Philip N. Lehner, 1998-04-16 At first glance studying behavior is easy but as every budding ethologist quickly realises there are a host of complex practical methodological and analytical problems to solve before designing and conducting the study How do you choose which species or which behavior to study What equipment will you need to observe and record behavior successfully How do you record data in the dark in the wet or without missing part of the action How do you analyse and interpret the data to yield meaningful information This new expanded edition of the Handbook of Ethological Methods provides a complete step by step introduction to ethological methods from topic choice and behavioral description to data collection and statistical analysis This book will be a must for beginning students and experienced researchers studying animal behavior in the field or laboratory **Critical Issues in Qualitative Research Methods** Janice M. Morse, 1994 The issues of soundness of qualitative research are examined in this book Contributors discuss how a researcher does qualitative research considering such questions as whether one deviates from the developer s protocol and what the ramifications are of such deviation how students learn to acquire the conceptual skills necessary to conduct qualitative inquiry and how theory emerges from the data The book discusses group effect in focus groups and describes an observational method using videotaped data The various schools of phenomenology and their major characteristics of excellence are explained and the Glasserian and Straussian methods of grounded theory are compared Issues of ethics and scientific integrity are also raised Each chapter dealing with a matter that has not yet been resolved or addressed in the literature is preceded by a dialogue in which contributors raise questions and comment upon the concept presented **Current Ornithology** Richard

Johnston, 2012-12-06 Volume 5 of this series continues its coverage of currently active research fields in ornithology Because an editor can never be a disinterested observer of his or her own editorial efforts any claim for superiority of this volume is not without conflict of interest Even so Volume 5 has certain merits that even a parent should acknowledge and I find the

current chapters not merely timely and authoritative but compelling in their demand for a reader's attention Wolfgang and Roswitha Wiltschko provide a perceptive review of magnetic orientation in birds a piece dedicated to Fritz Merkel the pioneer in studies of magnetic orientation Sergei Kharitonov and Douglas Siegel Causey are concerned with the behavioral ecology of seabird coloniality emphasizing their field experiences in the USSR and the United States Ted Miller examines the application of studies of bird behavior to comparative biology pursuing the interface of behavior and evolutionary biology adumbrated by Konrad Lorenz in the 1930s Jeremy Raynor gives us a summary of the work over the past decade on bird flight which is not by turns as complex or as simple as we had formerly believed Carrol Henderson describes recent developments in nongame bird conservation based on his pioneering work in the State of Minnesota Alan Kamil discusses optimal experimental design for research in ornithology a field in which experimental work is frequently difficult to pursue

Completing a Qualitative Project Janice M. Morse, 1997-07-15 What do I do after the data analysis is done This is one of the questions that plague most writers doing qualitative research and it is one of the key questions that inform this new work by Janice Morse Director of the International Institute of Qualitative Methodology at the University of Alberta Together with a contributor panel of 22 renowned and frequently published qualitative research authors Dr Morse explores a wide range of topics from the nuts and bolts protecting participants confidentiality finishing a project developing the writing topic finding other approaches to the angst of the publishing process critiquing qualitative research dealing with reflection responding to criticism and from the methodological linking qualitative and quantitative research and performing participatory action research and qualitative meta analysis to application generalizability in qualitative research the politicking of research results qualitative research in policy development These discussions make Completing a Qualitative Project a perfect companion volume for Dr Morse's early volumes Qualitative Nursing Research and Critical Issues in Qualitative Research What's more since the development of the book provided for input from the contributors on the others chapters each article combines the wisdom of the entire contributor panel and is followed by a dialogue on a related topic These dialogues resulted from intense brainstorming sessions among the contributors In perusing the book readers will be comforted to learn that they are not alone in their qualitative writing endeavors Completing a Qualitative Project is intended to inform support cajole and inspire altogether and enlightening read Zeitschrift für Semiotik, 1986 Die Biologie des menschlichen Verhaltens Irenäus Eibl-Eibesfeldt, 1984 **Behavioural Biology Abstracts**, 1979 **Animal Behaviour Abstracts**, 1979

Neuroethology Jeffrey M. Camhi, 1984 Tectonic Evolution and Midplate Volcanism in the South Pacific Kelsey Allyn Jordahl, 1999 Changes in morphology of the Marquesas Fracture Zone are correlated with small changes in Pacific Farallon relative motion The simple flexural signal of a locked fracture zone may be obscured by tectonic effects and there is no evidence for the release of shear stress on the fracture zone by vertical slip after leaving the active transform One such small change in plate motion is documented in the Southern Austral Island region of the South Pacific A twelve degree clockwise

change in Pacific Farallon relative motion occurred around fifty million years ago This Eocene change in spreading direction and rate is locally constrained with observations of magnetic anomalies and spreading fabric orientation At the southeastern end of the Cook Austral Island chain multiple episodes of volcanism have left a diverse population of seamounts Volume estimates from geophysical data and modeling show that one half to two thirds of the volcanic material is over thirty million years old while the remainder is less than five million years old Seismic and bathymetric data imply the presence of abyssal basalt flows in the flexural moat of the Austral Islands probably associated with Austral Islands volcanism which may contribute a significant amount of material to the archipelagic apron
