Personality Theories Salvatore R. Maddi, 1968 Personality Theory in a Cultural Context, *An Exploration of Career and Lifestyle Behaviors Within the Context of College Student Development for Undergraduate Female Family and Consumer Sciences Students* Delene W. Lautig, 2002 **Religious Thought and the Modern Psychologies** Don S. Browning, Terry D. Cooper, Religious Thought and the Modern Psychologies has pioneered the broader and deeper critique of psychological theories and practice informed by hermeneutical theory. Browning's widely acclaimed work drew much needed attention to the ethical and metaphysical even religious assumptions that underlie present day psychology. It has been deeply influential in many social sciences in addition to the fields of pastoral counseling and practical theology. In this much needed second edition Browning and his new co-author show how the field of social science has indeed grasped and appropriated the hermeneutical approach though with only slight appreciation of the religious dimensions of the social scientific endeavor. Browning and Cooper provide a completely new first chapter newly situating the discussion and update the core chapters of the book. They also add two new chapters carrying the dialogue on with three new psychotherapeutic theorists then with new evangelical writers on the relation of theology and psychology. This new edition like its predecessor will set the stage for the religion psychology dialogue for years to come.
