Perspectivism In Art:

Perspectivism in Art Jerry I. Jacobson, 1973 *Artistic Creation and Ethical Criticism* Ted Nannicelli, 2020-05-05 Artistic Creation and Ethical Criticism investigates an idea that underpins the ethical criticism of art but is rarely acknowledged and poorly understood namely that the ethical criticism of art involves judgments not only of the attitudes a work endorses or solicits but of what artists do to create the work The book pioneers an innovative production oriented approach to the study of the ethical criticism of art one that will provide a refined philosophical account of this important topic as well as conceptual tools that can guide future philosophizing and criticism Gottfried Benn's Static Poetry Mark William Roche, 2020-05-01 This book consists of close readings of four poems illustrating Gottfried Benn's developing conception of stillness or stasis *Trunkene Flut* 1927 *Wer allein ist* 1936 *Statische Gedichte* 1944 and *Reisen* 1950 Mark Roche pays particular attention to the interrelation of form and content and he uncovers previously overlooked allusions to thinkers such as Aristotle Seneca and Meister Eckhart Benn's supposedly pure poetry of stasis is in reality an expression of opposition to nazi ideology Roche argues and should be viewed in the context of inner emigration Nevertheless Benn's opposition to nazism unwittingly rests on the same decisionistic foundation as the power positivism he deplores Benn's well intentioned critique of nazism is ultimately unsuccessful The book concludes with a theoretical postscript that suggest ways in which intellectual history could be made productive for literary interpretation and provides arguments in favor of an aesthetic analysis attentive to both formal structures and philosophical coherence Bulletin of the Ramakrishna Mission Institute of Culture Ramakrishna Mission, India. Institute of Culture, 1977 Library Catalog of the Metropolitan Museum of Art, New York Metropolitan Museum of Art (New York, N.Y.). Library, 1980 **...isms: Understanding Art** Stephen Little, 2004-11-13 An introductory guide to the visual arts offers a look at the many isms that are used to define art movements with a discussion of the various art historical periods their significance and their most important artists and works **Homo Aestheticus** Luc Ferry, 1993 Can subjective individual taste be reconciled with an objective universal standard In *Homo Aestheticus* Luc Ferry argues that this central problem of aesthetic theory is fundamentally related to the political problem of democratic individualism Ferry's treatise begins in the mid 1600s with the simultaneous invention of the notions of taste the essence of art as subjective pleasure and modern democracy the idea of the State as a consensus among individuals He explores the differences between subjectivity and individuality by examining aesthetic theory as developed first by Kant's predecessors and then by Kant Hegel Nietzsche and proponents of the avant garde Ferry discerns two moments of the avant garde aesthetic the hyperindividualistic iconoclasm of creating something entirely new and the hyperrealistic striving to achieve an extraordinary truth The tension between these two Ferry argues preserves an essential element of the Enlightenment concern for reconciling the subjective and the objective a problem that is at once aesthetic ethical and political Rejecting postmodern proposals for either a radical break with or return to tradition Ferry embraces a

postmodernism that recasts Enlightenment notions of value as a new intersubjectivity His original analysis of the growth and decline of the twentieth century avant garde movement sheds new light on the connections between aesthetics ethics and political theory *Philosophy Unmasked* Laurie Calhoun,1997 A scathing critique of analytic philosophy contending that philosophy is a subjective enterprise and snubbing its nose at all first order philosophical theories Biting the hand that feeds her Calhoun philosophy State U of New York advances a metaphilosophical theory arguing that academia discourages skepticism among students excludes non philosophers from dialogue and perpetuates a false notion of philosophical proof which renders contemporary philosophy inaccessible and of little relevance to human life She bolsters her criticism with references to Richard Rorty and is clear as a bell in her polemics This volume will surely upset stomachs in the ivory tower

Vision and the Visual Arts in Galdos Peter Bly, 1986 Throughout his life the major Spanish novelist Benito Perez Gald s 1843 1920 took a keen interest in the visual arts Parts I and II of this book discuss Gald s s art journalism and his artistic contributions to the illustrated edition of the historical novels But the main focus part III is on references to the visual arts and pictorial landscapes particularly in the serie contempor nea the contemporary social novels Such allusions often act as a guide to interpretation they also relate to the whole philosophical question of how the eye perceives physical reality Professor Bly offers a fascinating analysis of the various types of interrelationship between visual art and novelistic action his study contributes greatly to the understanding of aesthetic and moral perception in Gald s s novels and contains wider implications for nineteenth century literary and aesthetic theory
