communication      **Politics, Media and Democracy in Australia** Brian McNair, Terry Flew, Stephen Harrington, Adam Swift, 2017-02-10 In Australia as in many comparable democracies the role of the media in the political process is high on the public agenda There is a perception of widespread disillusionment with and disengagement from politics amongst voters and criticism of the media for failing to fulfil their democratic responsibilities adequately This book evaluates public perceptions of the performance of the political media in the context of the declared aims and objectives of media producers From there the authors present findings for improving the capacity of political media to engage and inform their audiences in ways which enhance the quality and popular legitimacy of the democratic process These conclusions are of import not only to Australians but to observers of mediated politics in the UK the US and other countries where similar debates around the crisis of public communication are on going      **Worth Fighting for** Kathie Muir, 2008 When Labor won the 2008 election it was widely accepted that the Work Choices campaign run by the union movement and the anti union campaign run by the Howard Government were big reasons for victory Many commentators noted that there had never been a campaign like Your Rights at Work nothing so well resourced over such a long period This book examines the details of the campaign Provided by publisher      **Media Capitalism** Thomas Klikauer, 2022-01-01 This book argues that media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media's ability to sell the commodities of mass consumerism Media capitalism also creates pro capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass poverty rising inequalities and the acceleration of global warming To illuminate this the book's historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post media capitalist society      Policy ,2005      **Australian Book Review** ,2006      *Images, Colours and Reflections* ,2006

Sex in Public Lauren Rosewarne, 2007 Despite decades of feminist awareness and activism women continue to be portrayed in outdoor advertising in a limited and sexist manner The fact that in public space audiences are exposed to such images without choice renders the issue an important public policy concern Sex in Public utilises a large outdoor advertising data collection to examine the contemporary outdoor advertising landscape documenting the routine portrayal of women as thin white young and idle This book examines why such portrayals are concerning for feminists as well as for public policy and explores the advertising self regulation systems that facilitate the display of such images This book criticises sexist outdoor advertising as a form of sexual harassment given that imagery often bearing very strong semblance to pin ups which would be outlawed in a workplace are readily displayed in public space reflecting a troublesome public policy double standard Understanding sexist outdoor advertising as a form of sexual harassment is a new framework that Sex in Public
