Lazarsfeld,Elmo Roper,2017-07-12 First published in 1955 Personal Influence reports the results of a pioneering study conducted in Decatur

Illinois validating Paul Lazarsfeld's serendipitous discovery that messages from the media may be further mediated by informal opinion leaders who intercept, interpret and diffuse what they see and hear to the personal networks in which they are embedded. This classic volume set the stage for all subsequent studies of the interaction of mass media and interpersonal influence in the making of everyday decisions in public affairs, fashion, movie going and consumer behavior. The contextualizing essay in Part One dwells on the surprising relevance of primary groups to the flow of mass communication. Peter Simonson of the University of Pittsburgh has written that *Personal Influence* was perhaps the most influential book in mass communication research of the postwar era and it remains a signal text with historic significance and ongoing reverberations more than any other single work. It solidified what came to be known as the dominant paradigm in the field which later researchers were compelled either to cast off or build upon. In his introduction to this fiftieth anniversary edition, Elihu Katz discusses the theory and methodology that underlie the Decatur study and evaluates the legacy of his coauthor and mentor Paul F. Lazarsfeld.

Understanding Persuasion Raymond S. Ross, 1994 *Explorations in Interpersonal Communication* Gerald R. Miller, 1976-11

As interest in interpersonal communication grew among communication researchers during the late 70's, contemporary researchers in social psychology and sociology worked on the fields of personal perception, interpersonal attraction and non-verbal communication. The papers in this volume reflect the issues of concern to those researchers. Without exception, the contributors treat communication as it exists in the real world. This focus on research related to real problems rather than to the study of communication in a vacuum is to be commended. The last article is sufficiently interesting that it is like the end of a good movie. You will simply recommend it and the entire book to friends as I am doing here.
