Pesticide residues

Peach

Integrated crop management

ABSTRACT

The incidence and levels of pesticide residues in peaches grown using Integrated Crop Management (ICM) methods in Pella and Imathia, districts of Macedonia, Northern Greece, are hereby presented. A total of 1150 peach samples were collected pre-harvest (June–September) and were analysed during the period of 2002–2007. Residual levels of selected insecticides, fungicides and acaricides were determined by Gas Chromatography–Mass Spectrometry following solid phase extraction. The monitoring program is extended up to 21 pesticides. Twenty-two of them were measured above detection limit, and 8 of them were found present every year. Insecticides represent the highest incidence amongst pesticide categories (654 positive samples, 56.50%) while chlorpyrifos is the most frequent within the category (491 positive samples). The incidence of pyrethrins was the highest in 2007 (26.8%) while bifenox was detected most frequently within this category (67 positive samples in 2007). Traceable levels of pesticides were lower than the Maximum Residue Limits (MRLs) in all peach samples. Variations in incidence and levels of pesticides are attributed to some extent to the weather conditions as well as due to abundance by the guidelines of agronomists during blowing and harvest period. Monitoring in agricultural products could be employed as the first step in a chain of biomonitoring studies in humans, and may also be proven to be a good and ample indicator of exposure.

1. Introduction

Integrated crop management (ICM) cultivation includes guidelines which farmer unions use to enforce actions for the production of safe agricultural products, with simultaneous respect to the environment (Greek Ministry of Agriculture & Supervision of Agricultural Products, 1999a). ICM is a system that includes measures for good agricultural practice, for safety and hygiene of workers, for safety of products, for full traceability of measurements and for preservation of the environment. For instance, ICM allows all pesticides registered in conventional cultivations, while stipulating specific instructions for the application on crops (Greek Ministry of Agriculture & Supervision of Agricultural Products, 1999b).

Based on FAO statistics, Greece is the fifth largest world producer of peaches (<http://www.fao.org/stat/fao.org/site/339/default.asp>). Macedonia (prefectures of Imathia and Pella) being the

main area of cultivation. Since 1998, application of ICM is strongly enforced.

The Greek national authority for the application of ICM, AGRO-GEIT, has published two models 'AGRO 2.1 Specifications' and 'AGRO 2.2 Requirements'. The first includes general requirements in agricultural practice that can be inspected objectively. It constitutes the initial concepts for the certification of the ICM system that is applicable in every agricultural practice regardless of the type of crop. AGRO 2.2 describes the technical and legal requirements for the crop production system and accompanies the model of AGRO 2.1. It includes general rules and illustrates measures for environmentally friendly and good agricultural practice in order to produce safe and fine quality products, while achieving best environmental management.

Many issues concerning the implementation of ICM and especially that of pesticide residues are currently under investigation. A previously published paper points out that, levels of pesticide residues in fruit and vegetable samples originating from organic cultivations were considerably lower than those originating from conventional and ICM cultivations in USA (Baker, Benbrook, Groth, & Lutz Benbrook, 2002). Other relevant papers deal with a variety of topics such as: (a) the use of insecticides against the green peach

Organization**

Pesticides Residues In Food 2002 Evaluations Residues:

Pesticide Residues in Food - 2004 Food and Agriculture Organization of the United Nations, World Health Organization, 2005-01-01 This document published in two volumes contains the summaries of the residue data considered and the recommendations made at the 2004 Joint Meeting of the FAO Panel of Experts on Pesticide Residues in Food and the WHO Core Assessment Group

Pesticide residues in food 2018 - Report 2018 - Joint FAO/WHO Meeting on Pesticide Residues Food and Agriculture Organization of the United Nations, 2019-03-13 This meeting held in Berlin Germany on 18-27 September 2018 reviewed pesticide use patterns and good agricultural practices data on the chemistry and composition of the pesticides and methods of analysis for pesticide residues and recommended maximum residue levels The report also contains information on acceptable daily intakes and acute reference doses of pesticides for humans and general principles for the evaluation of pesticides The recommendations of the joint FAO and WHO meeting including further research and information are proposed for use by Member governments of the respective agencies and other interested parties The meeting was held in pursuance of recommendations made by previous meetings and accepted by the governing bodies of FAO and WHO that studies should be undertaken jointly by experts to evaluate possible hazards to humans arising from the occurrence of pesticide residues in foods

Pesticide Residues in Food - 2005 Food and Agriculture Organization, World Health Organization, 2006-01-01 This two volume publication contains information on acceptable daily intakes ADIs and maximum residue levels general principles for the evaluation of pesticides and the recommendations made at the 2005 Joint Meeting of the FAO Panel of Experts on Pesticide Residues in Food and the Environment JMPR and the WHO Core Assessment Group which was held in Geneva Switzerland in September 2005

Pesticide Residues in Food, 2005 Food and Agriculture Organization of the United Nations, World Health Organization, 2005-01-01 The annual Joint Meeting of the FAO Panel of Experts on Pesticide Residues in Food and the Environment and WHO Core Assessment Group on Pesticide Residues was held in Geneva Switzerland from 20 to 29 September 2005 The Panel reviewed pesticide use patterns good agricultural practice data on the chemistry and composition of the pesticides and methods of analysis for pesticide residues The WHO Core Assessment Group reviewed toxicological and related data and estimated acceptable daily intakes ADIs for humans This report contains information on ADIs maximum residue levels and general principles for the evaluation of pesticides

Pesticide Residues in Food 2007 Food and Agriculture Organization of the United Nations, 2007-01-01 The annual Joint Meeting of the FAO Panel of Experts on Pesticide Residues in Food and the Environment and the WHO Core Assessment Group on Pesticide Residues was held in Geneva Switzerland from 18 to 27 September 2007 The Meeting was held in pursuance of recommendations made by previous meetings and accepted by the governing bodies of FAO and WHO that studies should be undertaken jointly by experts to evaluate possible hazards to humans arising from the occurrence of pesticide residues in foods This report contains information on ADIs ARfDs maximum residue levels and general principles

for the evaluation of pesticides The recommendations of the Joint Meeting including further research and information are proposed for use by Member governments of the respective agencies and other interested parties

Joint FAO/WHO Meeting on pesticide residues | Report 2017 Food and Agriculture Organization of the United Nations, World Health Organization, 2018-05-22 Thirty eight pesticides were evaluated for toxicity and residues at the JMPR meeting This unique global review of pesticide residue data contains recommendations on pesticide residue limits and general dietary risk assessment principles for use by governments and other interested parties

Pesticide Residues in Food 2006 World Health Organization, Food and Agriculture Organization of the United Nations, 2007 Sponsored jointly by FAO and WHO A joint meeting of the FAO Panel of Experts on Pesticide Residues in Food and the Environment and the WHO Core Assessment Group Rome Italy 3-12 October 2006

Pesticide Residues in Food 2016 Food & Agriculture Organization, 2017-04-27 The pesticides diazinon, glyphosate and malathion were evaluated at the Joint Meeting of the FAO Panel of Experts on Pesticide Residues in Food and the Environment and the WHO Core Assessment Group on Pesticide Residues JMPR held in May 2016 This followed a recommendation that they be re-evaluated due to public health concerns identified by the International Agency for Research on Cancer IARC and the availability of a number of new studies The meeting reviewed epidemiological, toxicological and related data in order to establish acceptable daily intakes ADIs and acute reference doses ARfDs of the pesticides for humans It also estimated dietary exposures both short and long term to the pesticides reviewed and performed related dietary risk assessments

The FAO/IAEA Spreadsheet for Designing and Operating Insect Mass-rearing Facilities Carlos Cáceres, Pedro Rendón, Andrew Jessup, 2012 An important prerequisite of these programmes is the availability of adequate numbers of sterile male flies that are produced in large mass rearing facilities

WHO Recommended Classification of Pesticides by Hazard and Guidelines to Classification 2009 International Program on Chemical Safety, World Health Organization, 2010 The WHO Recommended Classification of Pesticides by Hazard was approved by the 28th World Health Assembly in 1975 and has since gained wide acceptance When it was published in the WHO Chronicle 29:397-401, 1975, an annex which was not part of the Classification illustrated its use by listing examples of classification of some pesticidal active ingredients and their formulations Later suggestions were made by Member States and pesticide registration authorities that further guidance should be given on the classification of individual pesticides Guidelines were first issued in 1978 and have since been revised and reissued every few years Up until the present revision the original guidelines approved by the World Health Assembly in 1975 have been followed without amendment In December 2002 the United Nations Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals UNCETDG GHS approved a document called The Globally Harmonized System of Classification and Labelling of Chemicals with the intent to provide a globally harmonized system¹ GHS to address classification of chemicals labels and safety data sheets The GHS with subsequent revisions is now being widely used for the

classification and labeling of chemicals worldwide For this revision of the Classification the WHO Hazard Classes have been aligned in an appropriate way with the GHS Acute Toxicity Hazard Categories for acute oral or dermal toxicity as the starting point for allocating pesticides to a WHO Hazard Class with adjustments for individual pesticides where required It is anticipated that few of the more toxic pesticides will change WHO Hazard Class as a result of this change As has always been the case the classification of some pesticides has been adjusted to take account of severe hazards to health other than acute toxicity as described in Part II The GHS Acute Toxicity Hazard Category for each pesticide is now presented alongside the existing information Page 1

WHO recommended classification of pesticides by hazard and guidelines to classification, 2019 edition, 2020-04-30 **Pesticide Residues in Food**, 2010 Submission and Evaluation of Pesticide Residues Data for the Estimation of Maximum Residue Levels in Food and Feed, 2009 During the 1990s Suriname was subject to exogenous shocks that were exacerbated by inadequate macroeconomic policy responses During that decade fiscal and monetary policies tended to vastly amplify the effects of negative shocks to bauxite export receipts leading to various episodes of nearhyperinflation Output growth was also highly volatile reflecting to some extent the countrys dependence on mining exports but more so the highly inadequate macroeconomic policies In recent years the outlook has turned substantively more positive The favorable external environment and the stability oriented policies of the Venetiaan administration have boosted confidence in the economy leading to increased investment domestic economic activity and employment Nonetheless the economy continues to be based largely on commodity exports mainly bauxite oil and gold while nontraditional agricultural exports face significant developmental and export hurdles A detai **Cassava Farmer Field Schools** Martin Ameu, 2013 This manual is part of FAO s effort to promote sustainable intensification of smallholder crop production It has been developed from experiences with farmer field schools in four African countries It provides background information on the farmer field school approach and a compilation of field exercises as they are used in cassava farmer field schools The guide is intended for use by farmer field facilitators during training of facilitators or during the farmer field school itself **Good Agricultural Practices for Greenhouse Vegetable Crops**, 2013 This publication capitalizes on the experience of scientists from the North Africa and Near East countries in collaboration with experts from around the world specialized in the different aspects of greenhouse crop production It provides a comprehensive description and assessment of the greenhouse production practices in use in Mediterranean climate areas that have helped diversify vegetable production and increase productivity The publication is also meant to be used as a reference and tool for trainers and growers as well as other actors in the greenhouse vegetables value chain in this region **Quality Declared Planting Material** Juan Fajardo, 2010 This publication includes a set of protocols and standards for the production of quality planting material of the most important vegetatively reproduced crops namely banana plantain and other Musaceae cassava cocoyam garlic hausa potato konjac mashua oca potato sweet potato taro ulluco and yam Prepared by FAO in collaboration with the International Potato Centre

and a team of international experts it follows the principles and approach of FAO's Quality Declared Seed System. Vegetatively propagated crop species contribute significantly to the agriculture and food production sectors of many developing countries and regions and to their food security. The current availability and dissemination of advanced reproduction technologies in particular for micropropagation have increased the scope for improvement and development of disease free planting materials for these crops. However in spite of their potential they have received little attention in formal seed quality regulatory systems. Thus these protocols and standards were developed to serve as practical and useful tools for seed producers and technicians at the community level as well as for national seed services and the agricultural research community in developing countries. Improved quality of planting materials will contribute significantly to improved agricultural production and productivity and to global food security. Book jacket *Seeds in Emergencies*, 2010. The seed security of small scale rural households is often put at risk by natural and human caused disasters. As a consequence seeds are frequently provided to vulnerable households as part of the emergency response. However seeds are unlike other inputs such as fertiliser or tools because they are fragile living organisms with specific quality attributes. In addition crop varieties must be adapted to the targeted agro ecological zone and meet the preferences of the local households. The WHO Recommended Classification of Pesticides by Hazard and Guidelines to Classification, 2004. **Pesticide Residues in Food - 2002**, 2003. The report Pesticide Residues in Food 2002 Toxicological Evaluations by the WHO Core Assessment Group of the 2002 Joint Meeting of the FAO Panel of Experts on Pesticide Residues in Food and the Environment and the WHO Core Assessment Group JMPR includes full toxicological monographs for nine pesticides acephate esfenvalerate flutoanil lindane metalaxyl metalaxyl M methamidophos oxamyl tolyfluanid and triazophos and monograph addenda for four pesticides carbofuran ethion fenamiphos and oxydemeton methyl. Esfenvalerate flutoanil and metalaxyl M were evaluated for the first time. Carbofuran fenamiphos and oxydemeton methyl were evaluated for establishment of acute reference doses. A report on Studies of Developmental Neurotoxicity and Their Use in Establishing Acute Reference Doses and Acceptable Daily Intakes is also presented. Pesticide Residues in Food - 2002, Evaluations 2002. Food and Agriculture Organization of the United Nations, 2003. Part 2 Toxicological evaluations is published by the World Health Organisation ISBN 9241665181. Sponsored jointly by FAO and WHO with the support of the International Programme on Chemical Safety IPCS.

Eventually, you will unquestionably discover a extra experience and realization by spending more cash. yet when? realize you consent that you require to get those every needs when having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will guide you to understand even more around the globe, experience, some places, taking into account history, amusement, and a lot more?

It is your entirely own mature to pretense reviewing habit. in the course of guides you could enjoy now is **Pesticides Residues In Food 2002 Evaluations Residues** below.

Pesticides Residues In Food 2002 Evaluations Residues Introduction

In the digital age, access to information has become easier than ever before. The ability to download Pesticides Residues In Food 2002 Evaluations Residues has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Pesticides Residues In Food 2002 Evaluations Residues has opened up a world of possibilities.

Downloading Pesticides Residues In Food 2002 Evaluations Residues provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Pesticides Residues In Food 2002 Evaluations Residues has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Pesticides Residues In Food 2002 Evaluations Residues. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Pesticides Residues In Food 2002 Evaluations Residues. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Pesticides Residues In Food 2002 Evaluations Residues, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from.

In conclusion, the ability to download Pesticides Residues In Food 2002 Evaluations Residues has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Pesticides Residues In Food 2002 Evaluations Residues Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Pesticides Residues In Food 2002 Evaluations Residues is one of the best book in our library for free trial. We provide copy of Pesticides Residues In Food 2002 Evaluations Residues in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Pesticides Residues In Food 2002 Evaluations Residues. Where to download Pesticides Residues In Food 2002 Evaluations Residues online for free? Are you looking for Pesticides Residues In Food 2002 Evaluations Residues PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Pesticides Residues In Food 2002 Evaluations Residues. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Pesticides Residues In Food 2002 Evaluations Residues are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest

of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Pesticides Residues In Food 2002 Evaluations Residues. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Pesticides Residues In Food 2002 Evaluations Residues To get started finding Pesticides Residues In Food 2002 Evaluations Residues, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Pesticides Residues In Food 2002 Evaluations Residues So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading Pesticides Residues In Food 2002 Evaluations Residues. Maybe you have knowledge that, people have search numerous times for their favorite readings like this Pesticides Residues In Food 2002 Evaluations Residues, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Pesticides Residues In Food 2002 Evaluations Residues is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Pesticides Residues In Food 2002 Evaluations Residues is universally compatible with any devices to read.
