Practicing Sustainability Guru Madhavan,Barbara Oakley,David Green,David Koon,Penny Low,2012-10-20 Sustainability applies to everybody But everybody applies it differently by defining and shaping it differently much as water is edged and shaped by its container It is conceived in absolute terms but underpinned by a great diversity of relatively green and sometimes contradictory practices that can each make society only more or less sustainable In Practicing Sustainability chefs poets music directors evangelical pastors skyscraper architects artists filmmakers as well as scientific leaders entrepreneurs educators business executives policy makers and the contrarians shed light on our understanding of sustainability and the role that each of us can play Each contributor addresses what sustainability means what is most appealing about the concept and what they would like to change to improve the perception and practice of sustainability What emerges from their essays is a wide spectrum of views that confirm an important insight Sustainability is pursued in different ways not only due to different interpretations but also because of varying incentives trade offs and altruistic motives Practicing and achieving sustainability starts with a willingness to look critically at the concept It also means enabling rich and vigorous discussion based on pragmatism and common sense to determine a framework for best ideas and practices With time and the much needed critical thinking sustainable development will become a more integral part of our culture By sharing experiences and crisp insights from today s savants Practicing Sustainability serves as a stepping stone to the future Congressional Record United States.
