Qabalistic Doctrine Concerning Cause And Effect Or Karma:

Kabbala William Juvenal Colville, 1916 Jewish Mysticism Sheila A. Spector,1984 **Oabalistic Doctrine** Concerning Cause and Effect Or Karma W. J. Coleville, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work **Doctrine of Anahuac** Samael Aun Weor, 2025-01-01 Be ye therefore wise as serpents Jesus A mysterious serpent is found in all religions and mythologies yet its true meaning was known only to initiates of the secret doctrine In the Bible a serpent tempted Eve yet a serpent also healed the Israelites Apollo fought the dreaded Python while a healing serpent rose upon the rod of Aesculapius The dual nature of the serpent is obvious yet few know that the serpent is within us In The Secret Doctrine of Anahuac Samael Aun Weor explores the traditions of the Aztecs to demonstrate the universal dualistic symbol of the serpent its practical meaning and its vital role in our lives whether aiding our spiritual development or tempting us towards degeneration and suffering Yet this is not a book of theories or beliefs but a manual of practical techniques that you can begin applying today such as meditation awakening in the world of dreams jinn science sexual transmutation and much more By awakening consciousness you no longer need beliefs or theories because you will know the truth from your own experience When the igneous serpent of our magical powers ascends along the spinal medullar canal of the human body it is our Divine Mother Kundalini When the igneous serpent descends downwardly projected from the coccygeal bone towards the atomic infernos of humans it is the abominable Kundabuffer organ the tail of Satan Samael Aun Weor The Western **Esoteric Traditions** Nicholas Goodrick-Clarke, 2008-10-14 Western esotericism has now emerged as an academic study in its own right combining spirituality with an empirical observation of the natural world while also relating the humanity to the universe through a harmonious celestial order This introduction to the Western esoteric traditions offers a concise overview of their historical development Nicholas Goodrick Clarke explores these traditions from their roots in Hermeticism Neo Platonism and Gnosticism in the early Christian era up to their reverberations in today's scientific paradigms While the study of Western esotericism is usually confined to the history of ideas Goodrick Clarke examines the phenomenon much more broadly He demonstrates that far from being a strictly intellectual movement the spread of esotericism owes a great deal to geopolitics and globalization In Hellenistic culture for example the empire of Alexander the Great which stretched across Egypt and Western Asia to provinces in India facilitated a mixing of Eastern and Western cultures As the Greeks absorbed ideas from Egypt Babylon Assyria and Persia they gave rise to the first esoteric movements From the late sixteenth to the eighteenth centuries post Reformation spirituality found expression in theosophy Rosicrucianism and Freemasonry Similarly in the modern era dissatisfaction with the hegemony of science in Western culture and a lack of faith in traditional

Christianity led thinkers like Madame Blavatsky to look East for spiritual inspiration Goodrick Clarke further examines Modern esoteric thought in the light of new scientific and medical paradigms along with the analytical psychology of Carl Gustav Jung This book traces the complete history of these movements and is the definitive account of Western esotericism

Introducing Religion Robert S. Ellwood, Patrick Horn, 2024-08-22 Introducing Religion examines the different ways of looking at religion in the twenty first century Providing a broad overview to the discipline of religious studies this new edition continues to introduce students to engaging and contemporary topics such as sociology of religion psychology of religion history of religion religion and art religious ethics popular religion religion and violence Thoroughly updated throughout this sixth edition includes new coverage of current debates and hot topics in the field such as concerns about essentialism in religion the importance of categorization and the role of psychology in religious experience This textbook is fundamental reading for students approaching this subject area for the first time Whole Elephant Revealed Marja de Vries, 2012-05-25 The Whole Elephant Revealed offers clear insights into the existence and operation of universal laws and the golden ratio It is a synthesis based on common insights found in all wisdom traditions into the operation of universal laws on the one hand and on cutting edge scientific discoveries that are in line with those insights on the other hand These principles are called universal because they work on all levels of existence apply to everything that exist and create order and harmony in the universe Insights into the operation of the universal laws reveals a whole new worldview It helps us to understand how everything works in the universe who we really are and how we can make conscious choices that are more in line with these universal laws Above all it helps us to understand what works and what doesn t work in the long term Everything that operates in line with the universal laws follows the path of least resistance and is in harmony with the greater whole It makes us realize that while everything in the universe works in harmony with these principles many aspects of our personal life and our Western culture are not in line with the operation of these underlying principles If we choose to act in line with the operation of the universal laws it will go easier will be more in tune with who we really are and more in harmony with the greater whole This choice is hard to make though if we don't know those principles For that reason the rediscovery of the working of these principles seems to be of extreme importance In this time of great changes and global unbalance a growing number of people begin to feel the need for a clear and well founded insight into the universal laws because this gives an understanding of what is needed to restore the balance and harmony in ourselves as well as worldwide Because the nature of these principles is universal they apply to all aspects of our individual and social life Therefore they can be used as a frame of reference for all personal and social transformations which aim at a greater harmony within ourselves and with the greater whole *Isis Unveiled* H. P. Blavatsky, 2015-06-01 Creating a sensation when it was first published in 1877 the first major work by the young Russian noblewoman who would found the Theosophical Society devoted 1200 pages to the mysteries of ancient and modern science and theology This new edition abridged by Theosophical scholar

Michael Gomes breathes fresh life into this classic of Western esoteric thinking Stripped of its lengthy quotations from other writers and its repetitious commentary Isis Unveiled is revealed to be a clear and readable exploration of the universal truths of the Ancient Wisdom Tradition by one of the most remarkable women of modern times
