**Selected Papers on Epistemology and Physics** B. von Juhos, G. Frey, 1976      Selected Papers on Epistemology and Physics Béla von Juhos, 1980      Selected Papers on Epistemology and Physics B. Juhos, 1976-12-31 It was as a result of having known Juhos personally over many years that I became familiar with his thought I met him and Viktor Kraft in Vienna soon after the War and through their acquaintance I first came into contact with the tradition of the Vienna Circle To their conversation too lowe much as regards the clarification of my own views even if in the end these took quite a different turn in many essentials At this point my gratitude goes first of all to Mrs Lia J uhos for the gen erous help she has given me and the editors of the Vienna Circle collection in selecting the contents of this volume Next we owe a special debt to Dr Paul Foulkes for his splendid translation of the text Finally I wish to thank Dr Veit Pittioni for his constant assistance As Juhos last student he was thoro lghly familiar with his supervisor s mode of thought and has significantly furthered the assembly and execution of this book      **Selected Papers on Epistemology and Physics** Bela von Juhos, 1976      **Selected Papers on Epistemology and Physics** Béla JUHOS, 1976      *Enzyklopädie Philosophie und Wissenschaftstheorie* Jürgen Mittelstraß, 2024-03-15 Die Enzyklop die Philosophie und Wissenschaftstheorie das gr te allgemeine Nachschlagewerk zur Philosophie im deutschsprachigen Raum wurde 1980 begonnen und 1996 mit dem vierten Band abgeschlossen Sie erschien 2005 bis 2018 in einer komplett aktualisierten und erweiterten 8 b ndigen Neuauflage die hiermit nun in einer kartonierten Sonderausgabe vorliegt Die Enzyklop die umfasst in Sach und Personenartikeln nicht nur den klassischen Bestand des philosophischen Wissens sondern auch die neuere Entwicklung der Philosophie insbesondere in den Bereichen Logik Erkenntnis und Wissenschaftstheorie sowie Sprachphilosophie Zugleich finden Grundlagenreflexionen in den Wissenschaften und deren Geschichte aus hrliche Ber cksichtigung Die umfassenden Bibliographien und Werkverzeichnisse wurden f r die 2 Auflage in allen Artikeln auf den neuesten Stand gebracht      **Der Wiener Kreis in Ungarn** András Máté, Miklós Rédei, Friedrich Stadler, 2012-01-29 Der Einfluss der logisch empiristischen Philosophie des Wiener Kreises kann bis heute in allen Gebieten der Philosophie festgestellt werden besonders aber in der analytischen Philosophie der Sprachphilosophie und der Wissenschaftstheorie Die erzwungene Emigration der meisten Mitglieder des Wiener Kreises aus Europa f hrte zu dessen Aufl sung und dadurch zur Unterbrechung der organischen Entwicklung der Tradition des logischen Empirismus in Mitteleuropa Diese Auswanderung von herausragenden Mitgliedern des Wiener Kreises an f hrende Universit ten und Forschungszentren in den USA hat aber dazu beigetragen dass der Logische Empirismus gleich nach dem Krieg zu einer wichtigen intellektuellen Richtung in der angels chsischen Welt wurde In Ungarn war dies jedoch nicht der Fall hier wurde nach dem Krieg die Bewertung der Stellung und Bedeutung des Logischen Empirismus durch ideologische Faktoren verzerrt Dennoch konnten die Gedanken des Logischen Empirismus nicht ignoriert werden und so wurden in Ungarn nach dem Krieg sowohl Philosophen als auch Wissenschaftler vom Logischen Empirismus beeinflusst In den Beitr gen der Konferenz

*Naturalistic Epistemology* A. Shimony, Debra Nails, 2012-12-06

1 AIMS OF THE INTRODUCTION The systematic assessment of claims to knowledge is the central task of epistemology According to naturalistic epistemologists this task cannot be well performed unless proper attention is paid to the place of the knowing subject in nature All philosophers who can appropriately be called naturalistic epistemologists subscribe to two theses a human beings including their cognitive faculties are entities in nature interacting with other entities studied by the natural sciences and b the results of natural scientific investigations of human beings particularly of biology and empirical psychology are relevant and probably crucial to the epistemological enterprise Naturalistic epistemologists differ in their explications of theses a and b and also in their conceptions of the proper admixture of other components needed for an adequate treatment of human knowledge e g linguistic analysis logic decision theory and theory of value Those contributors to this volume who consider themselves to be naturalistic epistemologists the majority differ greatly in these respects It is not my intention in this introduction to give a taxonomy of naturalistic epistemologies I intend only to provide an overview which will stimulate a critical reading of the articles in the body of this volume by facilitating a recognition of the authors assumptions emphases and omissions

**Selected Papers of Léon Rosenfeld** Robert S. Cohen, J.J. Stachel, 2012-12-06 The decision to undertake this volume was made in 1971 at Lake Como during the Varenna summer school of the Italian Physical Society where Professor Leon Rosenfeld was lecturing on the history of quantum theory We had long been struck by the unique blend of epistemological historical and social concerns in his work on the foundations and development of physics and decided to approach him there with the idea of publishing a collection of his papers He responded enthusiastically and agreed to help us select the papers furthermore he also agreed to write a lengthy introduction and to comment separately on those papers that he felt needed critical re evaluation in the light of his current views For he was still vigorously engaged in both theoretical investigations of and critical reflections on the foundations of theoretical physics We certainly did conceive of the volume as a memorial to a living saint but rather more practically as a useful tool to place in the hands of fellow workers and students engaged in wrestling with these difficult problems All too sadly fate has added a memorial aspect to our labors We agreed that in order to make this book most useful for the contemporary community of physicists and philosophers we should translate all non English items into English
