**The Shakespeare Project and Ensuing Essays** Ethan Lewis, 2015-06-18 For twenty plus years on a small Midwestern campus Dr Lewis has directed The Shakespeare Project a seminar scrutinizing four six plays per semester with a cadre of accompanying sonnets Master a method of reading the Bard through focus on a small set vis vis scattershot survey his syllabi promise and one not only could but would want to read Shakespeare not for an age but for all time Ben Jonson all one s life The Bard s idiom though complex proves eminently comprehensible as have observed such scholars as Kermode Vendler Bloom Garber Greenblatt Nuttall Booth Eliot Auden and others This book the harvest of Lewis endeavor consists of three parts the seminar essay syllabi a collection of close readings of Othello Macbeth Hamlet Henry VIII Timon and The Sonnets and a series of footnotes intended as mini master essays on minutiae The Project is grounded on the originary definition of scholarship as studying in school and offers a revisionary reading of three minor characters in Shakespeare s tragedies Emilia Albany Siward in the process of contending for a sensible coalescence of old fashioned character criticism with New Critical and Poststructural perspectives The text also formulates criteria for responsible reading via triple vision perceiving the work as at once reality poem and play a method forwarded through addressing ethical matters in the works faith in Hamlet conscience in Henry VIII stewardship in Timon of Athens The Shakespeare Project models reinfusing Shakespeare as terrain for critical thinking that affects everyday life The Blue Sapphire of the Mind Douglas E. Christie, 2013 In The Blue Sapphire of the Mind Douglas E. **Modern Poetry in Translation**, 1996 **Coleridge's Later Poetry** Morton D. Paley, 1996 The poems that Coleridge wrote after his golden period are seldom studied or anthologized Yet among the poems written after his most famous works are many of quality and interest addressing such universal themes as the nature of the self and the experience of unfulfilled love Paley examines the later verse in the context of Coleridge s oeuvre discusses what characterizes it and looks at why the poet felt he had to develop distinctively different modes of writing for these works To William Wordsworth is presented as a transitional poem exhibiting the vatic quality of earlier poems even while declaring that this quality must be abandoned Morton D Paley then explores the poetry of the abyss which he terms The Limbo Constellation and this is followed by poems on the theme of the self and of love The last chapter examines the role of epitaphs in the later works culminating in a study of the epitaph that Coleridge wrote for himself The Religious Sense Luigi Giussani, John E. Zucchi, 1997-10-24 The Religious Sense the fruit of many years of dialogue with students is an exploration of the search for meaning in life Luigi Giussani shows that the nature of reason expresses itself in the ultimate need for truth goodness and beauty These needs constitute the fabric of the religious sense which is evident in every human being everywhere and in all times So strong is this sense that it leads one to desire that the answer to life s mystery might reveal itself in some way **Literary Nuances** Ethan Lewis, 2019-02-01 This series of critical pieces is variously structured with conventional essays extended meditations and short analytic notes appealing to differing tastes Indeed the diverse

format constitutes a secondary thesis like the artists about whom they write literary critics are obliged to discover and execute of course the form best suited to convey the content The material in this case consists of meticulous close readings of authors almost spanning the alphabetical spectrum from Akhmatova to Yeats from Blake and Borges to Williams and Wittgenstein and likewise ranging over centuries the sixteenth through the twentieth Shakespeare and the Modernists largely figure in these musings which illuminate entertain and genuinely engage As T S Eliot remarked Our talking about poetry is an extension of our experience of it and as a good deal of thinking has gone to the making of poetry so a good deal may go to the study of it

**After Ontology** William D. Melaney,2001-04-19 After Ontology identifies the uniquely postmodern elements in hermeneutics and deconstruction in order to re read many of the central texts in modernist literature In a comparative study that illuminates points of contact between the philosophical positions of Gadamer and Derrida William D Melaney discusses Heidegger s influence on both Gadamer s ontological approach to the work of art and Derrida s transformative approach to the cultural text as implicitly postmodern The difference between these two approaches is presented through a mutual critique of modern aesthetics that demonstrates how deconstruction can contribute to postmodern criticism The poetry of Eliot Pound and Yeats is examined within this framework while the crucial example of Joyce is taken up in terms of the production and reception of Ulysses as a seminal influence The study concludes by emphasizing how Derrida provides an ethical version of hermeneutics that departs from Gadamerian models but can be reconciled with both postmodern insights and historical research
