Selected Writings: On verse, its masters and explorers Roman Jakobson, 1971 No detailed description available for On Verse Its Masters and Explorers **Theoretical Schools and Circles in the Twentieth-Century Humanities** Marina Grishakova, Silvi Salupere, 2015-04-10 Schools and circles have been a major force in twentieth century intellectual movements They fostered circulation of ideas within and between disciplines thus altering the shape of intellectual inquiry This volume offers a new perspective on theoretical schools in the humanities both as generators of conceptual knowledge and as cultural phenomena The structuralist semiotic phenomenological and hermeneutical schools and circles have had a deep impact on various disciplines ranging from literary studies to philosophy historiography and sociology The volume focuses on a set of loosely interrelated groups with a strong literary linguistic and semiotic component but extends to the fields of philosophy and history the interdisciplinary conjunctions arising from a sense of conceptual kinship It includes chapters on unstudied or less studied groups such as Tel Aviv School of poetics and semiotics or the research group Poetics and Hermeneutics The volume presents a significant supplement to the standard historical accounts of literary critical and related theory in the twentieth century It enhances and complicates our understanding of the twentieth century intellectual and academic history by showing schools and circles in the state of germination dialogue controversy or decline in their respective historical and institutional settings while reaching simultaneously beyond those dense settings to the new cultural and ideological situations of the twenty first century **Semiotics and City Poetics** Mary Coghill, 2022-12-05 Roman Jakobson stands alone in his semiotic theory of poetic analysis which combines semiotics linguistics and structuralist poetics This groundbreaking book proposes methods for developing Jakobson s theories of communication and poetic function It provides an extensive range of examples of the kinds of Formalist praxis that have been neglected in recent years developing them for the analysis of all poetry but especially the poetry of our urban future Throughout the book the parameters of a city poetic genre are proposed and established the book also develops the theory of the function of shifters and deixis with special reference to women as narrators It also instantiates an experimental poetic praxis based on the work of one of Jakobson s great influences Charles Sanders Peirce Steadfastly adhering to the text in itself this volume reveals the often surprising hitherto unconsidered structural and semiotic patterns within poems as a whole *Semiotik / Semiotics. 2. Sebeok, 2008-07-14 Keine ausf hrliche Beschreibung f r SEMIOTIK POSNER U A 2 TLBD HSK 13 2 E BOOK verf gbar *Central and Eastern European Literary Theory and the West* Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both

official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the *histoire croisée* the history of translations transformations and migrations that conditioned its relationship with the West
