

Self-Identity

Self And Identity

**Yoshihisa Kashima, Margaret
Foddy, Michael Platow**

Self And Identity:

Handbook of Self and Identity, Second Edition Mark R. Leary, June Price Tangney, 2011-12-21 Widely regarded as the authoritative reference in the field this volume comprehensively reviews theory and research on the self Leading investigators address this essential construct at multiple levels of analysis from neural pathways to complex social and cultural dynamics Coverage includes how individuals gain self awareness agency and a sense of identity self related motivation and emotion the role of the self in interpersonal behavior and self development across evolutionary time and the lifespan Connections between self processes and psychological problems are also addressed New to This Edition Incorporates significant theoretical and empirical advances Nine entirely new chapters Coverage of the social and cognitive neuroscience of self processes self regulation and health self and emotion and hypoeegoic states such as mindfulness

Self-Knowledge and Self-Identity Sydney Shoemaker, 1963 **Self and Identity** Yoshihisa Kashima, Margaret Foddy, Michael Platow, 2002-04-01 This edited volume outlines the latest meta theoretical and theoretical contexts of self research Self and Identity examines theoretical accounts of human experience within the contemporary socio cultural milieu and attempts to answer the question of what it means to be human It provides a clear structure within which to conceptualize contemporary empirical research on self and identity in terms of personal social and symbolic aspects In so doing it identifies the symbolic aspect as an emerging area of contemporary significance Featuring contributions from a distinguished group of scholars and therapists the book is organized into four parts The editors provide section introductions to demonstrate how each chapter relates to the book s overall theme as well as how the chapter authors responded to the editors charge to go beyond the social cognitive theory of the self Part I describes the current meta theoretical context of self research the editors interpretation of the social cognitive approach to the self and an emerging alternative theory the Connectionist Approach Part II highlights personal perspectives on selfhood Part III focuses on social perspectives and Part IV reviews symbolic processes The concluding chapter reviews the book s major themes with overlapping themes and intellectual disputes The book is intended for graduate students and researchers in social and personality psychology interested in self and identity and self research It may also be used as a supplemental text in advanced level courses on self and identity **Emerging**

Perspectives on Self and Identity Michael J. Bernstein, Elizabeth L. Haines, 2020-05-21 The broad concept of the self is fundamental to psychology serving as an anchor by which we perceive and make sense of the world as well as how we relate to and think about others This book develops creative points of view of the self which have not previously been reviewed creating a web of interconnected concepts under the umbrella of the self The various contributions to this book discuss these concepts such as self regulation self concept self esteem self awareness social comparison and self reference All of them are related to the self and all would justify a review of their own yet none of them have up to this point As a whole the book develops these new creative points of view of the self the integral primary component of our experience as social beings

Offering numerous perspectives on various aspects of the self which can foster new thinking and research this timely and important book makes suggestions for future research that will spur additional lines of work by readers This book was originally published as a special issue of *Self and Identity* *Understanding Early Adolescent Self and Identity* Thomas M. Brinthaupt, Richard P. Lipka, 2002-02-22 Addresses adolescent identity issues and suggests practical approaches to facilitate development and adjustment *Social and Personal Identity* Derek Layder, 2004-03-27 Analyses where a person's views attitudes values come from and why they change **Self-Identity and Everyday Life** Harvie Ferguson, 2009-04-08 Identity and selfhood are terms routinely used throughout the human sciences that seek to analyze and describe the character of everyday life and experience Yet these terms are seldom defined or used with any precision and scant regard is paid to the historical and cultural context in which they arose or to which they are applied This innovative book provides fresh historical insights in terms of the emergence development and interrelationship of specific and varied notions of identity and selfhood and outlines a new sociological framework for analyzing it This is the first historical sociological framework for discussion of issues which have until now generally been treated as philosophy or psychology and as such it is essential reading for those undergraduates and postgraduates of sociology philosophy and history and cultural studies interested in the concepts of identity and self It covers a broader range of material than is usual in this style of text and includes a survey of relevant literature and precise analysis of key concepts written in a student friendly style *Self and Identity*, 2012 **Music in Everyday Life** Tia DeNora, 2000-06-08 The power of music to influence mood create scenes routines and occasions is widely recognised and this is reflected in a strand of social theory from Plato to Adorno that portrays music as an influence on character social structure and action There have however been few attempts to specify this power empirically and to provide theoretically grounded accounts of music's structuring properties in everyday experience *Music in Everyday Life* uses a series of ethnographic studies an aerobics class karaoke evenings music therapy sessions and the use of background music in the retail sector as well as in depth interviews to show how music is a constitutive feature of human agency Drawing together concepts from psychology sociology and socio linguistics it develops a theory of music's active role in the construction of personal and social life and highlights the aesthetic dimension of social order and organisation in late modern societies

Self Studies Karl E. Scheibe, 1995-06-13 In this far ranging study Scheibe seeks an understanding of the self and personal identity In doing so he focuses on the various relationships of the self in social environments He examines the major historical perspectives on the self the process or processes of socialization memory and identity and the psychology of national identity A well written look at the essential considerations affecting the self in its development ongoing and changing identity and its relationships to others and to institutions this study will be of interest to scholars and researchers in psychology and sociology as well as the general reader *The Importance of How We See Ourselves* Marina A.L. Oshana, 2010-09-28 The past fifteen years have seen a wellspring of interest in the concept and practical nature of the self

Questions about the metaphysics of personal identity have preoccupied philosophical scholarship. Less attention has been paid to the topic of the self from the first person standpoint, the point of view of a person who regards certain phenomena as distinctive of and essential to her identity. Nor has much attention been paid to how this concept of the self is related to responsible agency. This book argues that a person's self-conception affects her status as a responsible agent. 1 The book develops a hybrid view of the self as the object of self-consciousness that is the subject and owner of the events that occur by means of its agency. Agents have unique identities as particular beings and identify themselves distinctively. 2 The book argues that a healthy veridical sense of self grounds responsible agency by enabling persons to be aware of what they do and to understand their motives. Certain pathologies upset the unity of a person's identity while others impair the lucidity of a person's sense of self and still others disturb general features of responsible agency such as the capacity to act purposively and realize one's will through intentional behavior. The book explains what it means to be oneself and what departures from this state signify for a person's ability to navigate life and make sense of himself in the process. The notion of acting out of character or failing to be oneself in some noteworthy way is relevant to a person's culpability because an individual's self-conception affects his status as an accountable agent. 3 To explain this the book defends an account of responsible agency. Responsible persons are accountable: alert to normative reasons in support of or in opposition to their behavior and able to respond to reasons for action bearing normative force because these reasons have normative force. Accountable persons are unified agents, a status that calls for an admission.

Agents have unique identities as particular beings and identify themselves distinctively. 2 The book argues that a healthy veridical sense of self grounds responsible agency by enabling persons to be aware of what they do and to understand their motives. Certain pathologies upset the unity of a person's identity while others impair the lucidity of a person's sense of self and still others disturb general features of responsible agency such as the capacity to act purposively and realize one's will through intentional behavior. The book explains what it means to be oneself and what departures from this state signify for a person's ability to navigate life and make sense of himself in the process. The notion of acting out of character or failing to be oneself in some noteworthy way is relevant to a person's culpability because an individual's self-conception affects his status as an accountable agent. 3 To explain this the book defends an account of responsible agency.

Responsible persons are accountable alert to normative reasons in support of or in opposition to their behavior and able to respond to reasons for action bearing normative force because these reasons have normative force Accountable persons are unified agents a status that calls for an adm

Identity and Story Dan P. McAdams, Ruthellen Josselson, Amia Lieblich, 2006 The editors bring together an interdisciplinary and international group of creative researchers and theorists to examine the way the stories we tell create our identities The contributors to this volume explore how beginning in adolescence and young adulthood narrative identities become the stories we live by

Self and Identity Daniel Kolak, Raymond Martin, 1991 This anthology gathers the most philosophically interesting contemporary writing on core issues about the self identity and the nature of mind

Self and Identity, 2002

Private Fleming at Chancellorsville Perry Lentz, 2006 What intelligent person has never pondered the meaning of life For Yuval Lurie this is more than a puzzling philosophical question it is a journey and in this book he takes readers on a search that ranges from ancient quests for the purpose of life to the ruminations of postmodern thinkers on meaning He shows that the question about the meaning of life expresses philosophical puzzlement regarding life in general as well as personal concern about one's own life in particular Lurie traces the emergence of this question as a modern philosophical quandary riddled with shifts and turns that have arisen over the years in response to it

Tracking the Meaning of Life is written as a critical philosophical investigation stretching over several traditions such as analytic philosophy phenomenology and existentialism It maps out a journey that explores pivotal responses to this question drawing especially on the thought of Tolstoy Wittgenstein Sartre and Camus and exploring in depth the insights these thinkers offer regarding their own difficulties concerning the meaning of life In the book's four sections Lurie discusses Tolstoy's challenge to experience the religious and transcendental meaning of life by choosing a simple hardworking existence Wittgenstein's focus on ethics and discovering the sense of the world his conclusion that the question of the meaning of life makes no sense and his turning to experience the mystical aspect of the world Sartre's positing of freedom as the basis of human life stipulating a personal answer to the question of the meaning of life and Camus' view of the absurdity of life unalleviated by any personal meaning Guided by these views Lurie imparts new insight to ideas that underlie our concern with life's meaning such as the difference between attitudes toward life and beliefs and opinions about life the meaning of words versus the meaning of events shared meanings versus personal meanings and the link between ethics and personal identity

Tracking the Meaning of Life is no mere dry philosophical study but a journey that dramatically illustrates the poignancy of the quest for meaning showing that along the way it gradually becomes more obvious how personal meaning may be found in the pulsations of everyday life The book offers stimulating reading not only for scholars in philosophy but also for general readers who wish to see how their personal concerns are echoed in modern philosophical thought More than a description of a journey it is a map to anxieties and puzzlements we all face pointing to ideas that can guide readers on their own search for meaning

Handbook of Self and Identity Mark R. Leary, June Price

Tangney,2002-10-18 The self has emerged as a central construct in many domains of behavioral and social science This state of the science volume brings together an array of leading authorities to comprehensively review theory and research in this burgeoning area Coverage includes the content structure and organization of the self processes related to agency regulation and self control self evaluation and self related motivation and emotion interpersonal and cultural issues and self development across evolutionary time and the lifespan Also examined are ways that the development of the self can go awry resulting in emotional and behavioral problems

Self Identification Management (Sim) Temitayo Oyediran,2016-08-04 SIM book is not for everyone but its a packaged combination of great insights words of encouragement and action plans for those existing or potential entrepreneurs business leaders and managers all kinds of professionals youths adults parents and spiritual persons wholl want to fulfill their purpose in life and leave behind a legacy that can live beyond them Its almost impossible for anyone to achieve anything without knowing who they are where they are and what they need to do in order to achieve any of their lifes goals Many of these facts are elicited in the SIM book and the principles outlined if implemented and managed properly can turn a mediocre life into a successful and fulfilling one

Rethinking Rehabilitation Kathryn McPherson,Barbara E. Gibson,Alain Leplege,2015-03-19 This book informs readers about how leading researchers are rethinking rehabilitation research and practice It emphasizes discussion on the place of theory in advancing rehabilitation knowledge unearthing important questions for policy and practice underpinning research design and prompting readers to question clinical assumptions Each author proposes ways of thinking that are informed by theory philosophy and or history as well as empirical research Rigorous and provocative it presents chapters that model ways readers might advance their own thinking learning practice and research

Iraqi Christian Minority and Identity: A Critical Discourse Analysis of Selected English and Arabic Novels Nassier Al-Zubaidi,Marwa Al-Bazzaz,2023-04-21 Doctoral Thesis Dissertation from the year 2022 in the subject English Language and Literature Studies Linguistics University of Baghdad language English abstract The study of identity within a given discourse is one of the significant topics in the field of critical discourse analysis Iraqi Christian identity has undergone various political and social changes during different historical periods leading to the emergence of the Christian identity as a minority in society The present study investigates the representation of the identity of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels More precisely the present study is a critical discourse analysis of the Christian identity as a minority in selected English and Arabic novels namely the English novel *Abducted in Iraq* by Saa d Hanna 2017 and the Arabic Novel *The American Granddaughter* by Inaa m Kachachi 2009 The study aims at first identifying the identity representation of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after 2003 war second investigating the textual resources and their role in the identity construction of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after 2003 war third identifying the discursive resources and their role in the identity construction of Iraqi Christian minority in the

narrative discourse of selected English and Arabic novels before and after 2003 war fourth examining the social resources and their role in the identity construction of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after 2003 war That is it examines the role played by power and social dynamisms in the identity construction under analysis and fifth investigating similarities and differences in the identity construction of Iraqi Christian minority in the narrative discourse of selected English and Arabic novels before and after 2003 war at the textual discursive and social levels of analysis For achieving the afore mentioned aims a purposive sampling technique is used to choose the most representative data from the selected English and Arabic novels The data is analysed according to a synthesised theoretical framework based on Wodak et al 2009 Fairclough 2015 Wortham 2001 and Graumann 1999 The data are analysed both qualitatively and quantitatively
