Self Creation:

The Designed Self Carlo Strenger, 2013-05-13 What can contemporary psychoanalysis bring to the understanding of Generation X a cohort for whom the trivialization of a dizzying array of possible experiences teamed with the pressure to lead spectacular lives often leads to diffuse feelings of confusion depression and disorientation The Designed Self chronicles Strenger's therapeutic encounters with five extraordinarily gifted young adults for whom the ideal of authenticity long associated with the Baby Boom generation was supplanted by the need to experiment endlessly with the self Perpetual self experimentation constantly reinforced by the media came to encompass everything from career choice to hair color to body shape to gender identity In compelling clinical stories Strenger introduces us to patients for whom the project of shaping the self had become a cultural imperative no less than an expression of individuality At once insightful and cautionary The Designed Self investigates how psychoanalysis must change if it is to claim cultural relevance and therapeutic effectiveness in The Age of the Designed Self

Erzähltes Selbst / The Narrated Self Jochen Schmidt, 2020-08-01 Dieser Band versammelt Beiträge zum weiten Gebiet der narrativen Ethik mit einem Schwerpunkt auf erzählender Literatur und Prozessen der Selbsterzählung Am Anfang stehen Beiträge zum Stand der Forschung zur narrativen Ethik aus theologischer Perspektive und zur Frage nach dem theologischen Zugriff auf literarische Texte sowie der Situierung narrativer Ethik im interkulturellen Kontext Ein zweiter Teil legt den Fokus auf Aushandlungen von Identität in autobiographischen Texten Exemplarisch werden Quellen aus der Antike der Zeit um 1800 und dem 20. Jahrhundert ausgewertet Abschließend widmen sich Beiträge der Bedeutung von Selbsterzählung im Zusammenhang von seelischem Leiden und Suchtkrankheit The Narrated Self Narrative Ethics from the Perspectives of Theology and Literary Studies The contributions to this collection belong to the vast field of narrative ethics with a focus on narrative literature and the processes of self narration The first section looks at the current scholarly field of narrative ethics in theology and at theological approaches to literary texts The focus of the second section of the collection is on the negotiations of identity in autobiographical texts There is a particular emphasis on exemplary sources from antiquity and from the time of the 19th and 20th centuries The last two chapters of the collection inquire into the meaning of self narration in the realm of mental suffering and addictive illness

Creating Identity in the Victorian Fictional Autobiography Heidi L. Pennington, 2018-04-30 This is the first book length study of the fictional autobiography a subgenre that is at once widely recognizable and rarely examined as a literary form with its own history and dynamics of interpretation Heidi L. Pennington shows that the narrative form and genre expectations associated with the fictional autobiography in the Victorian period engages readers in a sustained meditation on the fictional processes that construct selfhood both in and beyond the text Through close readings of Jane Eyre David Copperfield and other well known examples of the subgenre Pennington shows how the Victorian fictional autobiography subtly but persistently illustrates that all identities are fictions Despite the subgenre's radical implications regarding the nature of personal identity fictional

autobiographies were popular in their own time and continue to inspire devotion in readers This study sheds new light on what makes this subgenre so compelling up to and including in the present historical moment of precipitous social and technological change As we continue to grapple with the existential question of what determines who we really are this book explores the risks and rewards of embracing conscious acts of fictional self production in an unstable world

New Trinitarian Ontologies, Volume I John Milbank,Ryan Haecker,JD Lyonhart,2025-11-11 The Holy Trinity is the oldest idea of Christian hope The study of being or ontology was once regarded as a seminal preparation for the study of God as the creative cause of all being in theology Yet due to a series of theological mistakes metaphysics came to be separated from the Trinity before God came to be conceived as the supreme being of all beings in general metaphysics natural theology and modern ontology The analytic and continental philosophical traditions have since tended to treat the Trinity as at best superfluous and at worst redundant to modern formal ontologies Yet the postmodern collapse of all such formal ontologies has prepared the path for a renewed study of metaphysics or ontology that shares in participation with the Trinity New Trinitarian Ontologies names a creative response to this pivotal collapse of modern formal ontologies If ontology cannot contain but rather more radically points to God and if all nature thus tends towards the supernatural the angelic and the metaphysical then we should renew the study of the metaphysics or ontology of the Trinity This volume represents a collection of responses to this challenge of rendering ontology in a Trinitarian style *Creativity and Madness* Albert Rothenberg,1990-09-01 Intrigued by history s list of troubled geniuses Albert Rothenberg investigates how two such opposite conditions outstanding creativity and psychosis could coexist in the same individual Rothenberg concludes that high level creativity transcends the usual modes of logical thought and may even superficially resemble psychosis But he also discovers that all types of creative thinking generally occur in a rational and conscious frame of mind not in a mystically altered or transformed state Far from being the source or the price of creativity Rothenberg discovers psychosis and other forms of mental illness are actually hindrances to creative work Disturbed writers and absent minded professors make great

characters in fiction but Rothenberg has uncovered an even better story the virtually infinite creative potential of healthy human beings

The Life and Thought of Lev Karsavin Dominic Rubin, 2013 At last Russia has begun to speak in a truly original voice So said Anatoly Vaneev a Soviet dissident who became Karsavin's disciple in the Siberian gulag where the philosopher spent his last two years The book traces the unusual trajectory of this inspiring voice Karsavin started his career as Russia's brightest historian of Catholic mysticism however his radical methods which were far ahead of their time shocked his conservative colleagues The shock continued when Karsavin turned to philosophy writing flamboyant and dense essays in a polyphonic style which both Marxists and religious traditionalists found provocative There was no let up after he was expelled by Lenin from Soviet Russia in exile he became a leading theorist in the Eurasian political movement combining Orthodox theology with a left wing political orientation Finally Karsavin found stability when he was invited to teach history in Lithuania there he spent twenty years reworking his philosophy before suffering the German and Soviet invasions of his new homeland and then deportation and death Clearing away misunderstandings and putting the work and life in context this book shows how Karsavin made an original contribution to European philosophy inter religious dialogue Orthodox and Catholic theology and the understanding of history

One of the significant advantages of Self Creation books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes.
