Selling Of 911 How A National Tragedy Became A Commodity:

The Selling of 9/11 D. Heller, 2016-09-23 The Selling of 9 11 argues that the marketing and commodification of the terrorist attacks of September 11 2001 reveal the contradictory processes by which consumers in the United States and around the world use communicate and construct national identity and their sense of national belonging through cultural and symbolic goods Contributors illuminate these processes and make important connections between myths of nation practices of mourning theories of trauma and the politics of post 9 11 consumer culture Their essays take critical stock of the role that consumer goods media and press outlets commercial advertising marketers and corporate public relations have played in shaping cultural memory of a national tragedy

9/11: Culture, Catastrophe and the Critique of Singularity Diana Gonçalves, 2016-10-24 Even though much has been said and written about 9 11 the work developed on this subject has mostly explored it as an unparalleled event a turning point in history This book wishes to look instead at how disruptive events promote a network of associations and how people resort to comparison as a means to make sense of the unknown i e to comprehend what seems incomprehensible In order to effectively discuss the complexity of 9 11 this book articulates different fields of knowledge and perspectives such as visual culture media studies performance studies critical theory memory studies and literary studies to shed some light on 9 11 and analyze how the event has impacted on American social and cultural fabric and how the American society has come to terms with such a devastating event A more in depth study of Don DeLillo's *Falling Man* and Jonathan Safran Foer's *Extremely Loud and Incredibly Close* draws attention to the cultural construction of catastrophe and the plethora of cultural products 9 11 has inspired It demonstrates how the event has been integrated into American culture and exemplifies what makes up the 9 11 imaginary

9/11 and the Visual Culture of Disaster Thomas Stubblefield, 2014-12-17 An insightful view on how 9 11 is perceived in American society the day that refuses to enter history the tragedy that has in effect not yet passed *Journal of Popular Culture* The day the towers fell indelible images of plummeting rubble fire and falling bodies were imprinted in the memories of people around the world Images that were caught in the media loop after the disaster and coverage of the attack its aftermath and the wars that followed reflected a pervasive tendency to treat these tragic events as spectacle Though the collapse of the World Trade Center was the most photographed disaster in history it failed to yield a single noteworthy image of carnage Thomas Stubblefield argues that the absence within these spectacular images is the paradox of 9 11 visual culture which foregrounds the visual experience as it obscures the event in absence erasure and invisibility From the spectral presence of the Tribute in Light to Art Spiegelman's nearly blank *New Yorker* cover from the elimination of the Twin Towers from TV shows and films to the monumental cavities of Michael Arad's 9 11 memorial the void became the visual shorthand for the incident By examining configurations of invisibility and erasure across the media of photography film monuments graphic novels and digital representation Stubblefield interprets the post 9 11 presence of absence as the reaffirmation of national identity that

implicitly laid the groundwork for the impending invasions of Iraq and Afghanistan A concise engaging and thought provoking work that asks the reader to reassess their knowledge and relationship to that moment and the resulting milieu of post 9 11 life in America ARLIS NA Reviews Extraordinarily brilliant will change how we think about disasters and tragedies The book is a must read for both students and practitioners of media studies Repository **The Routledge Companion to Literature and Trauma** Colin Davis,Hanna Meretoja,2020-05-11 Literary trauma studies is a rapidly developing field which examines how literature deals with the personal and cultural aspects of trauma and engages with such historical and current phenomena as the Holocaust and other genocides 9 11 climate catastrophe or the still unsettled legacy of colonialism The Routledge Companion to Literature and Trauma is a comprehensive guide to the history and theory of trauma studies including key concepts consideration of critical perspectives and discussion of future developments It also explores different genres and media such as poetry life writing graphic narratives photography and post apocalyptic fiction and analyses how literature engages with particular traumatic situations and events such as the Holocaust the Occupation of France the Rwandan genocide Hurricane Katrina and transgenerational nuclear trauma Forty essays from top thinkers in the field demonstrate the range and vitality of trauma studies as it has been used to further the understanding of literature and other cultural forms across the world Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **9/11 Culture** Jeffrey Melnick,2011-09-15 9 11 Culture serves as a timely and accessible introduction to the complexities of American culture in the wake of the 9 11 attacks Gives balanced examinations of a broad catalogue of artifacts from film music photography literary fiction and other popular arts Investigates the ways that 9 11 has exerted a shaping force on a wide range of practices from the politics of femininity to the poetics of redemption Includes pedagogical material to assist understanding and teaching including film and discographies and a useful teachers preface **9/11 Gothic** Danel Olson,2021-09-21 Published to coincide with the twentieth anniversary of the World Trade Center attacks 9 11 Gothic Decrypting Ghosts and Trauma in New York City s Terrorism Novels returns to the ruins and anguish of 9 11 to pose a question not yet addressed by scholarship Two time World Fantasy Award winning writer Danel Olson asks how why and where New York City novels capture the terror of the Al Qaeda mass murders through a supernatural lens This book explores ghostly presences from the world s largest crime scene in novels by Don DeLillo Jonathan Safran Foer Lynne Sharon Schwartz Griffin Hansbury and Patrick McGrath all of whom have been called writers of Gotham Arguing how theories on trauma and the Gothic can combine to explain ghostly encounters civilian survivors experience in fiction Olson shares what those eerie meetings express about grief guilt love memory sex and suicidal urges This book also explores why and how paths to recovery open for these ghost visited survivors in the fiction of catastrophe from the early twenty first century *The Future of Humanity* Pavlina Radia,Sarah Fiona Winters,Laurie Ruk,2019-08-12 What is the future of humanity What does it

mean to be human in the posthuman age What responsibility does humankind have towards others and their environments How are the stories that humans tell themselves implicated in the very power asymmetries and eco political challenges that they bemoan Taking a cross disciplinary approach to the posthuman age the essays in this collection speak to the multifaceted geographies and counter geographies of humanity probing into the possible futures we face as planetary species Some of these include ecological issues generated by centuries of neglecting our environment s power asymmetries stemming from economic and cultural globalization violence and its affective politics informed by cultural ethnic and racial genocides religious disputes social inequities produced by consumerism gender normativity and the increasing impact of digital and AI artificial intelligence technology on the human body as well as historical socio political not to mention ethical relations
