Shadow Globalization Ethnic Conflicts And New Wars A Political Economy Of Intra State War:

Shadow Globalization, Ethnic Conflicts and New Wars Dietrich Jung, 2002-12-26 Focusing on the political economy of so called new wars this book presents a series of studies that analyse the complexities of current warfare by moving from the global sphere to local spots of organised violence It thus raises questions about the very idea of intra state wars and shows that these wars are inseparably linked to the global economy *War Economies in a Regional Context* Michael Charles

Pugh, Neil Cooper, Jonathan Goodhand, 2004 This book emphasizes the role of economic factors in the conditions that lead to state collapse give rise to and sustain conflict and complicate peacebuilding The book argues that existing state level focus tends to ignore the role of regional linkages in permitting and sustaining conflict and as obstacles to transformation Furthermore that the focus on the dynamics of conflict in states of the developing world tends to artificially distance the outside predominantly Western world from their genesis and evolution taken from introduction **Nationalism and**

Intra-State Conflicts in the Postcolonial World Fonkem Achankeng, 2015-09-28 This book highlights the complexities of nationalism and the struggles of different groups left unaddressed within the nation states of a postcolonial world The central question is what happened to the worldly and radical visions of freedom liberty and equality that animated intellectual activists and policy makers from Woodrow Wilson in the 1920s This book analyzes the outcome of lumping disparate groups of people together under one nation state and holding them together against the knowledge of the incompatibility theory of plural states In a world of arbitrarily and colonially mapped sovereign states groups and nations with distinctive histories and cultures trapped within the borders of sovereign states want the freedom to decide their own destinies This book challenges deconstructs and decolonizes Western epistemologies related to postcolonial state formation and maintenance In examining the freedom concept that no human group ought to be determining the independence of other human groups this book constructs an alternative conceptualization of nations and peoples rights in the twenty first century in which radical hopes and global dreams are recognized as central to internal nationalism struggles Staatlichkeit in Zeiten des Statebuilding

Berit Bliesemann de Guevara, 2009 Ausgezeichnet mit dem Deutschen Studienpreis 2009 Sektion Sozialwissenschaften Statebuilding ist zu einer Kernaufgabe globalen Regierens avanciert Bisherige Versuche durch internationale Interventionen Staaten nach westlichem Muster zu formen sind jedoch hinter ihren Zielen zurückgeblieben Diese Studie geht der Frage nach wie sich liberales Statebuilding auf die Institutionalisierungsdynamik staatlicher Herrschaft auswirkt Am Beispiel Bosnien und Herzegowina wird gezeigt dass Statebuilding gleichzeitige Prozesse der Staatsstärkung und schwächung auslöst Diese tragen einerseits zum Aufbau formaler Institutionen bei andererseits behindern sie aber in vielerlei Hinsicht die Konsolidierung legal-rationaler Staatlichkeit Im Ergebnis mangelt es dem bosnisch-herzegowinischen Staat hinter einer modernen Staatsfassade an substanzieller Handlungsfähigkeit und Legitimität Die internationale Politik des Statebuilding stützt letztlich an strukturelle Grenzen *Illegale Märkte in Postkonfliktgesellschaften* Nina Engwicht, 2016-12-08 Was wird aus

Kriegsökonomien wenn Kriege enden Nina Engwicht untersucht die Entwicklung illegaler Märkte im Spannungsfeld von Reform und fragiler Staatlichkeit am Beispiel des überhitzten Diamantenmarktes in Sierra Leone Sie blickt aus einer sozialwissenschaftlichen Perspektive auf den illegalen Markt in der Postkonfliktgesellschaft und zeigt dass andauernde Illegalität die Friedenskonsolidierung nicht notwendig gefährdet **Criminology and War** Sandra Walklate, Ross

McGarry, 2015-03-24 It is widely observed that the study of war has been paid limited attention within criminology This is intellectually curious given that acts of war have occurred persistently throughout history and perpetuate criminal acts victimisation and human rights violations on a scale unprecedented with domestic levels of crime However there are authoritative voices within criminology who have been studying war from the borders of the discipline This book contains a selection of criminological authors who have been authoritatively engaged in studying criminology and war Following an introduction that places war within criminology the collection is arranged across three themed sections including Theorising War Law and Crime Linking War and Criminal Justice and War Sexual Violence and Visual Trauma Each chapter takes substantive topics within criminology and victimology i.e corporate crime history imprisonment criminal justice sexual violence trauma security and crime control to name but a few and invites the reader to engage in critical discussions relating to wars both past and present The chapters within this collection are theoretically rich empirically diverse and come together to create the first authoritative published collection of original essays specifically dedicated to criminology and war Students and researchers alike interested in war critical criminology and victimology will find this an accessible study companion that centres the disparate criminological attention to war into one comprehensive collection **A Crisis of Global Institutions?**

Edward Newman, 2007-08-07 The legitimacy of global institutions which address security challenges is in question The manner in which they make decisions and the interests they reflect often falls short of twenty first century expectations and norms of good governance Also their performance has raised doubts about their ability to address contemporary challenges such as civil wars weapons of mass destruction terrorism and the use of military force in international politics Addressing topical issues such as the war against Iraq in 2003 and terrorism and presenting provocative arguments A Crisis of Global Institutions explores the sources of the challenge to multilateralism including US pre-eminence the changing nature of international security and normative concerns about the way decisions are taken in international organizations Edward Newman argues that whilst some such challenges are a sign of crisis many others are representative of normality and continuity in international relations Nevertheless it is essential to consider how multilateralism might be more viably constituted to cope with contemporary and future demands *Herausforderung Mittelost* Hans-Georg Ehrhart, 2005

Friedens- und Konfliktforschung Peter Schlotter, Simone Wisotzki, 2011 Das Studienbuch ist im Sinne eines State of the art Bandes konzipiert und gibt einen Überblick über die Wissensbestände und zentralen Problemfelder der deutschen Friedens und Konfliktforschung Hierzu konnten mehr als 20 namhafte Experten gewonnen werden die jeweils auf ihrem

Arbeitsgebiet die wichtigsten Entwicklungen und Erkenntnisse in der wissenschaftlichen Forschung darstellen Veränderungen von Fragestellungen vor dem Hintergrund des gesellschaftlichen oder internationalen Wandels resumieren und nach der Tragfähigkeit von Theorien und bisheriger Erkenntnisse fragen Das Buch spannt thematisch einen Bogen von klassischen Themenbereichen der Friedens und Konfliktforschung wie Rüstungskontrolle und Abrüstung Militär und Krieg der Kriegsursachenforschung und den Zusammenhängen von Unterentwicklung und Frieden bis zur Rolle internationaler Organisationen und Regime Weitere Themen sind der Demokratische Frieden die Friedenserziehung und Friedensstrategien sowie Geschlechterperspektiven in der Friedens und Konfliktforschung die Bedeutung von Naturwissenschaften für Krieg und Frieden und nicht zuletzt die historische Friedensforschung Alle Beiträge durchzieht die Frage nach dem wissenschaftlichen Selbstverständnis einer Disziplin die Darstellung der Kontroversen um die Begriffe und die Behandlung der herausragenden Streitfragen innerhalb der Friedens und Konfliktforschung Dieser Band ist gleichzeitig Band 35 der AFK Friedensschriften Gewaltordnungen bewaffneter Gruppen Jutta Bakonyi, Stephan Hensell, Jens Siegelberg, 2006 Der Staat in der Weltgesellschaft Klaus Schlichte, 2005 Theorien zu staatlicher Herrschaft sind bislang vor allem auf die Staaten der westlichen Industrienationen bezogen Klaus Schlichte untersucht auf der Grundlage klassischer soziologischer Ansätze Weber Elias Bourdieu und Foucault die Genese und den Wandel staatlicher Herrschaft in Afrika Asien und Lateinamerika Er leistet damit einen Beitrag zur Analyse der Macht und Herrschaftsbeziehungen in der Weltgesellschaft von militärischen Interventionen bis zu Formen der Entwicklungszusammenarbeit *Challenges to Peacebuilding* Edward Newman, Oliver P. Richmond, 2006 Many ceasefires and peace agreements in civil conflict are initially unsuccessful Whilst some give way to renewed and often escalating violence others have become interminably protracted leading to lengthy negotiations in which concessions are rare Given the huge material and human costs of a failed peace process the international community has a strong interest in helping these processes succeed and addressing threats to their implementation This publication focuses on the groups and tactics referred to as spoilers that actively seek to obstruct or undermine conflict settlement through a variety of means including terrorism and violence drawing upon experience from Northern Ireland the Basque region Bosnia Colombia Israel Palestine Cyprus the Caucasus and Kashmir It explores the concept of spoiling and spoiling behaviours from a broad range of interests involved including rebel groups and insurgents diasporas and governments considers how this can be addressed and demonstrates how ill conceived or imposed peace processes can themselves contribute to the problem Globalisierung Andreas Niederberger, Philipp Schink, 2011-04-12 Ein wahrlich interdisziplinäres Handbuch zur Globalisierungs Diskussion **Between War & Peace in Sudan & Sri Lanka** N. Shanmugaratnam, Nadarajah Shanmugaratnam, 2008 Sudan and Sri Lanka are two countries that have experienced protracted internal wars The consequences of the internal wars of the Sudan and Sri Lanka have been devastating for human and livelihood security and for these two countries overall development Both countries have records of failed attempts to resolve their conflicts by

political means both have been going through internationally facilitated peace processes which have also been linked to post conflict development Each intra state conflict has its distinct historical political economic and cultural characteristics Yet there are parallels between two developing countries in which post colonial state formation has become mired in prolonged anti state armed conflict This book addresses from different angles and different levels the issues of conflict resolution peace preparation people s perceptions of the impact of conflict on their lives war induced grievances relief vulnerability poverty livelihood revival and social mobility and development *Interethnic Integration in Five European Societies* Nikolai Genov,2008 **Hyperconflict** James Mittelman,2010-01-08 This book addresses two questions that are crucial to the human condition in the twenty first century does globalization promote security or fuel insecurity And what are the implications for world order Coming to grips with these matters requires building a bridge between the geoeconomics and geopolitics of globalization one that extends to the geostrategic realm Yet few analysts have sought to span this gulf Filling the void Mittelman identifies systemic drivers of global security and insecurity and demonstrates how the intense interaction between them heightens insecurity at a world level The emergent confluence he labels hyperconflict a structure characterized by a reorganization of political violence a growing climate of fear and increasing instability at a world level Ultimately his assessment offers an early warning to enable prevention of a gathering storm of hyperconflict and the establishment of enduring peace *The Dynamics of States* Klaus Schlichte,2005 This volume deals with recent changes in state domination in the non Western world It develops a new approach to the study of state formation and state erosion to explain dynamics that neither follow the pathways of development nor the rule of stagnation that dependency theory once suggested **Political Violence in South and Southeast Asia** Itty Abraham,Edward Newman,Meredith Leigh Weiss,2010 Political Violence in South and Southeast Asia brings together political scientists and anthropologists with intimate knowledge of the politics and society of these regions They present unique perspectives on topics including assassinations riots state violence the significance of geographic borders external influences adn intervention and patterns of recruitment and rebellion R sum de l diteur *Problems of Post-communism* ,2004 **Contested Grounds** Amita Baviskar,2008 Articles from a conference held at Kathmandu in 2003
