Shakespeare's Tragedy of King Lear William Shakespeare,1875 The Fool in Shakespeare's "King Lear". Roles and Function Anne Lipp,2016-11-23 Seminar paper from the year 2013 in the subject English Language and Literature Studies Literature grade 2.0 University of Potsdam Anglistik Amerikanistik language English abstract Throughout history the traditional function of the fool in a royal household was to entertain the members of the court by being an imbecile and a jester In King Lear Shakespeare allows his Fool to take over the unique position of the person who is able to correct his master without being punished Nevertheless the Fool does not seem to have any direct influence on the behavior of the king as he is not taken seriously The aim of this paper is to present the various roles of the Fool and to analyze his function within the play Throughout the play the Fool takes over the role of the person who constantly reminds Lear of his mistakes in order to enlighten him and make him realize his folly He first appears in the middle of Act I Scene IV of the play and immediately points out that Lear has made a mistake by dividing his kingdom among his daughters When talking to Kent he says if thou follow him King Lear thou must needs wear my coxcomb How now Nuncle Would I had two coxcombs and two daughters King Lear Act I sc iv l 109 111 In this scene the Fool is offering his coxcomb to Kent By referring to his cap as a coxcomb he uses the ambiguous meaning of this word in order to suggest the king to be the fool

rather than himself Kent before him had criticized Lear for his decision causing him to be banished from the kingdom
however the Fool receives no such punishment showing that he can get away with actions that are far more courageous
