Yachnin, 2015-10-22 Was Shakespeare really the original genius he has appeared to be since the eighteenth century a poet whose words came from nature itself The contributors to this volume propose that Shakespeare was not the poet of nature but rather that he is a genius of rewriting and re-creation someone able to generate a new language and new ways of seeing the world by orchestrating existing social and literary vocabularies Each chapter in the volume begins with a key word or phrase from Shakespeare and builds toward a broader consideration of the social poetic and theatrical dimensions of his language The chapters capture well the richness of Shakespeare's world of words by including discussions of biblical language Latinity philosophy of language and subjectivity languages of commerce criminality history and education the gestural vocabulary of performance as well as accounts of verbal modality and Shakespeare's metrics An Afterword outlines a number of other important languages in Shakespeare including those of law news and natural philosophy *Catholic World*, 1896 **Shakespeare's World and Work** John Frank Andrews, 2001 Elizabethan Life Shakespeare William *The Woman's World ...* Oscar Wilde, 1889 *The American*, 1897 **The Catholic world**, 1894 *New Catholic World*, 1894
