in comparison with the other residents and visitors of the city By choosing Windsor as the setting Shakespeare links the city of Windsor and its independent middle class with the presence of the monarchy The proximity to Windsor Castle and the siege of the Order of the Garter bring the aristocracy into the play and introduce the authority of the Crown Due to Fenton s and Falstaff s presence in the play Windsor s middle class has to face the social class above them and the problems which exist between the two However it is not only the aristocracy which helps the Windsor middle class to define and establish themselves but also the foreigners in the play Therefore it is important to consider the interactions of the middle class with Parson Evans or Dr Caius in order to see how far these foreigners differ from the English and how they help the Fords and the Pages to establish themselves in their society and to reconfirm their national identity as well as their position in society The use of the term middle class however is problematic Since it includes the term middle the question arises of what middle actually means opposed to whom or what this class is the middle and in which context it has to be seen Since
