The Poems of John Dryden: 1686-1693

John Dryden, David Hopkins, 1995 John Dryden was the greatest writer of Restoration England These volumes are the third and fourth volumes in a five volume edition of Dryden's poems and result from a complete reappraisal of the canon text and context of his work The modernised text has been prepared from a fresh examination of the early printed editions and takes account of the large number of manuscript copies which survived These volumes cover the poems which Dryden published between 1686-1696 This was a decade which saw the completion of his work of Catholic apologetics *The Hind and the Panther* the major translations from Juvenal and Persius and his return to the stage after the Revolution of 1688-9 deprived him of the laureateship Throughout these two new volumes Dryden's language is glossed in unprecedented detail revealing the poetic precision of his vocabulary Together with volumes one and two they offer the most informative and accessible edition of Dryden's poetry and provide an invaluable resource for students of Restoration culture Selected Poems, John

Bloomsbury Poetry Classics are selections from the work of some of our greatest poets The series is aimed at the general reader rather than the specialist and carries no critical or explanatory apparatus This can be found elsewhere In the series the poems introduce themselves on an uncluttered page and in a format that is both attractive and convenient The selections have been made by the distinguished poet critic and biographer Ian Hamilton John Dryden was born in 1631 and was best known in his lifetime as a playwright His poems were often adjuncts of his critical theories or instruments of war in his numerous literary vendettas A merciless satirist he nonetheless trod cautiously in his political allegiances He wrote in fluent praise of both Cromwell and King Charles II In the 1680s with James II's accession he became a Roman Catholic In his later years he gave up writing for the theatre and largely devoted himself to translating from the classics He died in 1700

State of Ridicule Dan Sperrin, 2025-04-29 This will be the first proper history of English satire from its origins in the late medieval period to the present day This book is a history of political satire in English literature from the Middle Ages through the nineteenth century The aim is to present a coherent history of what has been an everchanging complex series of literary traditions that we refer to as satire from its beginnings in various kinds of medieval grotesque up to the proliferation of the modern novel Author Dan Sperrin presents interesting and original insights into the satirist's paradoxical situation at both the periphery and the centre of culture The text is organised chronologically by period and is concentrated upon

canonical figures including Chaucer Dryden Swift Pope Johnson and Dickens but also including more obscure writers in such a way as to be focused enough to tell a story but broad enough to include variation of which there is decidedly a great deal by the very nature of what the author describes as a mercurial literary form Satire as Sperrin demonstrates often takes aim at grand narratives and comprehensive taxonomies and the book accounts for eccentricity and individuality as a matter of principle
